MARKHAM HEATING & AIR CONDITIONING SYSTEMS

SINCE 1983

How HVAC Services Work

- Request a quote or schedule service online.
- Technician inspects HVAC system and evaluates performance.
- Diagnosis is provided, including issues such as clogged filters, Thermostat malfunctions, or refrigerant levels imbalance.
- Service is performed, including repair, installation, or maintenance plan setup.
- System components such as blower motor, evaporator coil, and refrigerant lines are tested.
- Customer receives a detailed service summary with next steps and recommendations.

HVAC Products and Services Included

Markham Heating and Air Conditioning offers a full range of solutions designed to improve energy-efficient performance and comfort. Services include HVAC System Installation, Repair & Maintenance Services, and upgrades to High Efficiency Cooling & Heating systems.

Common systems serviced include:

- Air conditioner units for residential and commercial cooling
- Gas furnace systems with heat exchanger inspection and repair
- Heat Pump system installation and maintenance
- Water heater and tankless water heaters installation
- Hot water tanks and gas fireplace servicing
- Indoor air quality solutions such as air purification systems
- Smart thermostats for improved energy efficiency
- The company also provides Condo System Service and Spring Service packages to maintain system performance year-round.

Pricing and Cost Factors

The cost of markham hvac services depends on several factors, including the type of service, system size, and urgency. Emergency or same-day repairs may increase costs, while ongoing maintenance plan options help reduce long-term expenses.

Key pricing factors include:

- Type of service such as AC repair or installation
- System type including furnace, Heat Pump, or air conditioner

MARKHAM HEATING & AIR CONDITIONING SYSTEMS

SINCE 1983

- Property size and system complexity
- Parts required such as heat exchanger or blower motor replacements
- Urgency and availability of Service Express options
- Transparent pricing ensures customers understand all costs before service begins.
-

Quality, Safety, and Compliance

All technicians are fully licensed in Ontario and follow strict safety standards. Services include inspection of carbon monoxide risks, condensate drainage systems, and refrigerant levels to ensure safe operation.

Markham Heating & Air Conditioning is a Factory Authorized Dealer, providing energy-efficient products and eco-friendly HVAC solutions that meet modern performance standards. The company emphasizes proactive care through Protection Plans and maintenance plan options to reduce breakdowns and extend system lifespan.
