

## **READING – Meet My Friends and Family**

*Underline and circle all of the possessive adjectives in the reading.*

I have amazing friends and family. My best friend, Mike, is great. He's always smiling and laughing. His hair is long, brown, and curly. His favorite hairstyle is a bun. Every Saturday we play football together. It's his favorite sport!

My friend, Jenny, is so kind. She's my friend and my classmate. Our class meets every Monday and Wednesday. Jenny loves to read. Her favorite book is about the future of science. She can't stop talking about it. Her favorite place to read is the library. We hang out there every Sunday.

My brother is also my friend, even though we are family. Jaime is so fun to be around. His jokes always make me laugh! His craziness and happiness is contagious. Our house is never quiet because of him!

My cousin, Emily, is also great. She's an artist. She loves to paint. Her paintings look like photographs because of how good she is. Her artwork sells for a lot of money. She paints pictures of sunsets and flowers. Her parents are very proud of her.

I can't forget to mention my dog, Max. Max is a pet, and he's another member of my family. He's adorable! His fur is soft and furry. He's always ready to play. His favorite game is fetch.

With friends and family like these, every day is a new experience!
