Some astronauts are in outer space. The trip does not go exactly to plan...Write to narrate (tell) a story about this adventure.

What problem is caused?

How is it solved?

Think about:

- where your story is set
- who your characters are – what they do, what they say, and how they think and feel
- the problem and how it is solved
- the order of your ideas and how they are linked.

Remember to:

- choose your words carefully
 - take care with your spelling, punctuation, and sentences
 - edit – add or delete words or sentences to improve your work.
