

# Arena & Dungeons

On the server, there are dungeons and arenas where you can gain additional rewards and experience. For this, you need specific passes that drop from bosses and MVPs

You can find the locations for NPCs in the tab with the interactive map.

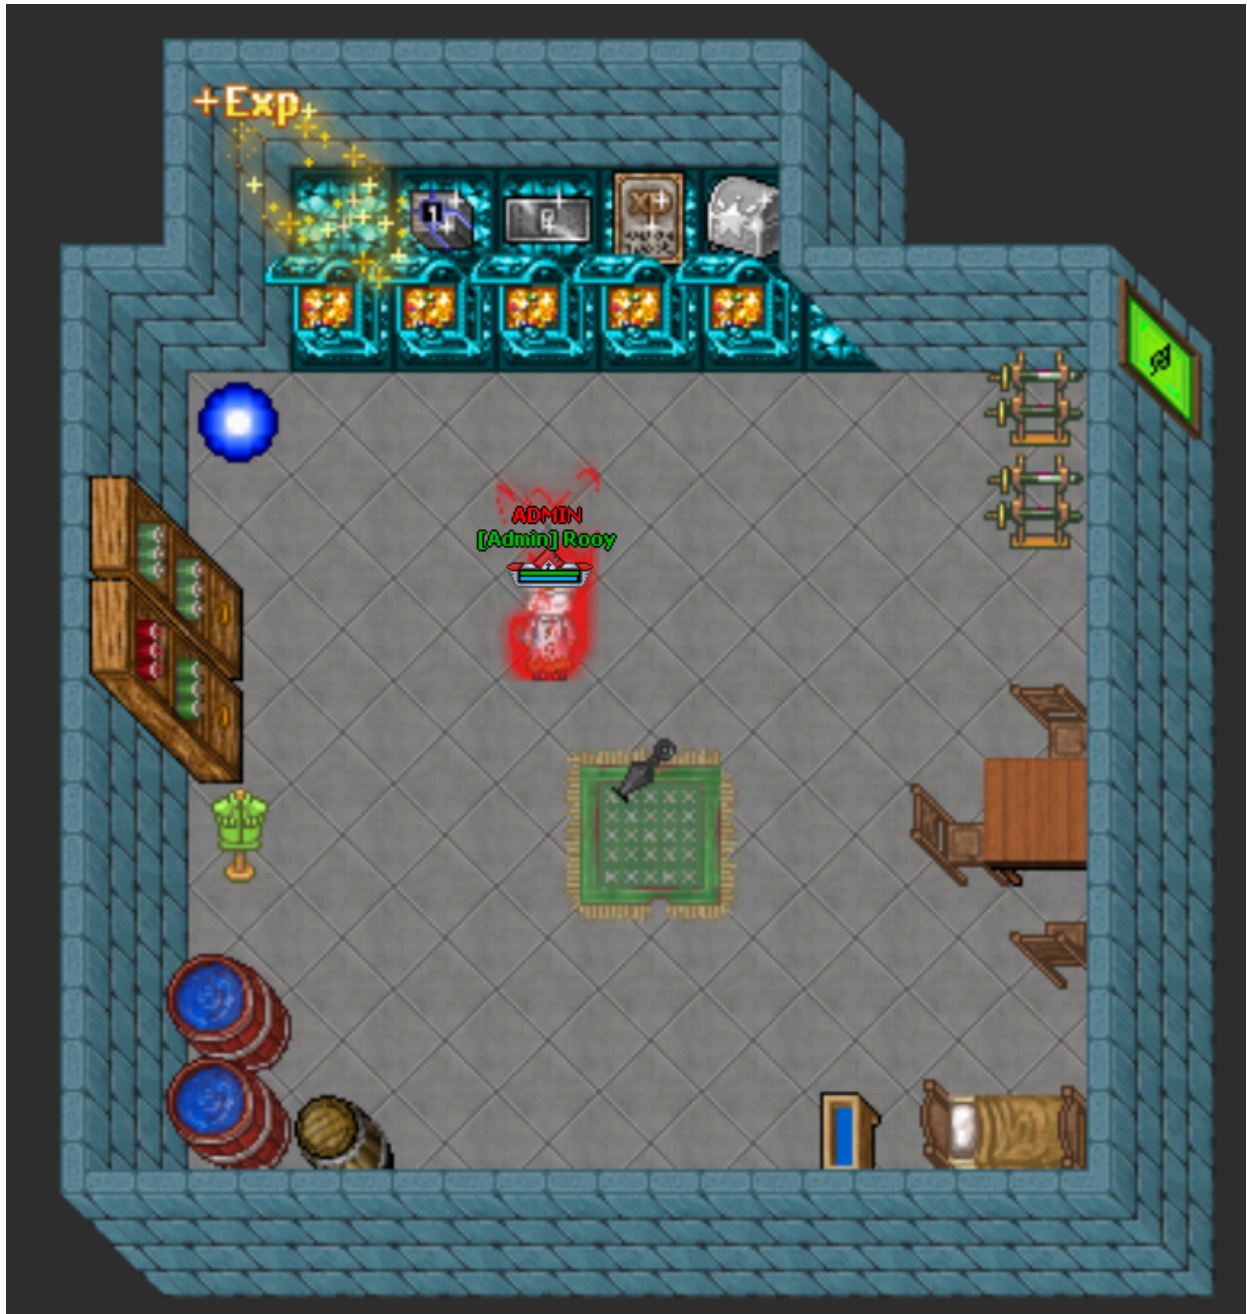

After killing monsters/bosses and obtaining a key or ticket, you can proceed to the stage of collecting the reward

Each reward has its own separate cooldown, which you can check with a command. This does not limit you from completing missions to help someone from your team.
