Score Code Guide Guidance

Score Codes for Online Tests

X - ARD decision	A score code of “X” is submitted when an ARD committee, in conjunction with an LPAC, determines that a student should not be assessed in one more language domains due to a disability. Include the following rationale on your set score code submission in Cambium: • ARDC determined due to student disability the student is not to participate in this domains assessment
A -Absent	A score code of “A” should be filled in for students who were absent each time he/she was scheduled to test or absent throughout the entire testing window. Include the following rationale on your set score code submission in Cambium: • Student was absent for the entire test window and unable to be assessed
O - Other	A score code of “O” should be filled in for students who cannot finish their tests due to illness or a testing irregularity. For these students, the CTC must also complete the “Documentation of Other” for campus documentation. Include the following rationale on your set score code submission in Cambium: • Student became ill during testing and did not return to campus during the test window to complete testing

Score Codes for Holistically-rated Assessments

X - ARD decision	A score code of “X” is submitted when an ARD committee, in conjunction with an LPAC, determines that a student should not be assessed in one more language domains due to a disability. Include the following rationale on your set score code submission in Cambium: • ARDC determined due to student disability the student is not to participate in this domains assessment
E - Extenuating Circumstance	A score code of “E” is submitted when an eligible student cannot be rated in the specified domain due to extenuating circumstances. Due to the 6-week testing window, <u>this should be rarely used. Contact Student Assessment to determine the appropriate rationale verbiage to include in the score code submission.</u>
