For Nathan: What is a good first mod if you don't have materials like a belt sander or epoxy

Nanobot 1 week ago

Question for the next episode: As this episode (episode 12) is the one year anniversary of the Dlsone podcast, looking back at the podcast what have been all of your favourite moments from the previous episodes? Also thanks for taking the time to make these, I thorough enjoy listening to them. :)

Brigham Dent 2 weeks ago

Plus two penalties are already proportional because if you have an auf misalignment on 2x2 that is a 1 move out of 15 or so moves so there should be a steeper penalty. On 7x7 a misalignment is only 1 move out of a few hundred moves so it should have a less steep penalty.

Jonathan Poret 2 days ago

For everyone: Do you guys get bullied in school for cubing? If so, how did you deal with it?

NNP Cuber 1 week ago

For Nathan: What do you think about sticker modding?

KSNCubed 2 weeks ago

for all of you: has it been hard for you to transition from summer into school from a cubing standpoint? and for nathan: how long have you been modding for?

FelipeCardim1000 2 weeks ago

For all: Do you guys think Chan Hong Lik (A 7yr old boy who got an 8.72) can get a world record in the future?

Awesomeness Ang 2 weeks ago

For the hosts,

How do you guys pick the guest for every episode. Do you just pick the more famous cubers or do you guys also pick the not so famous ones? I mean it helps the not so famous cubers' on their channels.

CDVpro 2 weeks ago

Do you guys think that the amount of resources on YouTube is allowing people to get faster quicker? I've been cubing a year now and I average about 17 seconds.

Keystone Cuber 2 weeks ago

For Nathan: If you had to quit modding, but could keep cubing but it was only speedsolving, would you keep cubing?
