

Delta Math Set Up Instructions

- Go to Deltamath.com
- Create account - student (teacher code: 715028)
- Enter name/school email/create password - select Period for class
- Once account is created - log in (may need to go back to deltamath.com) to complete assignment

****Important Note - Make sure when typing your answers into delta math, you follow the directions exactly. For example, if the directions specify to round to the nearest tenth and you type in 20.78 instead of 20.8, it will mark you wrong**

**** You have 2 attempts at each problem. You need to get a specified number of problems correct in order to receive credit. For example, if the assignment states 10 problems need to be correct, it may take you working through 12 problems to get those 10 correct.**
