Asst. Principal/ Athletic Director: *Walter Stahl*

Assistant Principal: *Kelsey Snow*
Counselors: *Lori Arthur & Stacey Bruce*

Profile:

Madras High School is a general education secondary school serving grades 9 through 12 in rural Central Oregon. MHS is accredited through the Northwest Association of Accredited Schools. MHS's nearly 700+ students make up one of the most culturally diverse student bodies in Oregon, featuring a near-even breakdown of Caucasian, Hispanic, and Native American students. MHS operates on a semester system of seven forty-nine-minute classes, five days per week, eighteen weeks per term. On late start Mondays, students attend all 7 classes. On Tuesday-Friday, students attend all 7 classes plus have a 29-minute Guideroom or Student Support period where they can get help from staff or attend enrichment opportunities. A huge range of learning abilities, from special education to Talented and Gifted (TAG), are addressed through remedial, ELL, regular, and advanced (enriched and "College") level classes. The student-to-teacher ratio at Madras High School is 23 to 1. Twenty-four credits are required for graduation; students can earn a regular diploma or can graduate with honors (3.6+ gpa) or with highest honors (3.6+ gpa) that includes a challenging course load. Classes are graded on a four-point grade scale; only "College" titled core course grades are weighted on a 5.0 scale.

Madras High School's curriculum is standards based; all courses have identified Priority Standards. These standards encompass what a student will need to know and be able to do to earn credit for the course as well as to enhance career and college readiness. A student will either earn an A, B, C, D or F based on the level of thinking that student is able to demonstrate for that standard. Assessments may take many forms; some, though not all, are written tests. All assessments are tied directly to the Priority Standards, and students are provided with clear targets as each standard is introduced.

Upper-Level Classes:

College Composition 1 & 2, College US History, College Political Science, College Algebra, College Trigonometry, College Calculus, College Biology, College Environmental Science, College Chemistry, and College Research Immersion for Equity.
