Directions

This one is super easy, grab a paper sack, your favorite embossing folder and run it through the Stampin' Cut Embossing Machine. Then decorate the front of your sack with cards from the Memories & More pack (cut to size of sack). Decorate with Stickers and Ribbons from the same pack. Add Embellishments of ribbon and stickers. After you put your gift in the sack, fold the top and punch two holes about two inches apart. Tie together with Ribbon, bells and seal with a sticker (or just tie in a cute bow). Place your gift under the tree and tell your family and friends "no peeking".
