Lake Forest High School District 115
Lake Forest Elementary School District 67

Daniel Mortensen
Director of Facilities

July 1, 2026

Dear Lake Forest School District 67 and 115 Parents and Staff,

Integrated Pest Management Notification

Lake Forest School District 67 and Lake Forest Community High School District 115 practice Integrated Pest Management, a program that combines preventative techniques and the appropriate use of pesticides with a preference for products that are least harmful to human health and the environment. The term "pesticide" includes insecticides, herbicides, rodenticides, and fungicides.

Registry

The School Districts maintain a registry of people who wish to be notified prior to pesticide applications. To be included in this registry, please contact the Director of Facilities, Daniel Mortensen at dmortensen@lfschools.net, and you will be notified prior to the use of pesticides.

Respectfully,

Daniel Mortensen, CPMM

Director of Facilities, District 67 and 115
