London, TW3 1AX

## **Student and Parent Views on Lift Kingsley**

### **Student Views**

#### **Erinn ( Year 7)**

At Lift Kingsley the teachers are kind, caring and help with anything. My favourite subject is PE. Kingsley has a variety of sports, which helps students improve and encourages them to take part. Kingsley is a school for everyone, no matter who you are or where you are from, they will always support you.

#### **Fahad (Year 8)**

At the start of year 7, whenever I am in my lessons teachers help me out every single time whenever I am having trouble solving a question. I used to not know the subjects English and reading and when my teacher had helped me out I had got back up on my feet to success. The teachers are really nice to the students in Lift Kingsley and the students are kind and teachers are here for us whenever we need help so overall year 6's i can assure and guarantee you that if you join this school then you will not regret it;) )

#### **Mohamed (Year 10)**

'I joined Lift Kingsley in November of Year 7, after leaving a nearby school where I was not happy because of bullying. I was a little bit worried about joining Y7 mid way through and some boys from football had told me bad stories but I shouldn't have worried. I can honestly say that I have been very impressed with Kingsley and it is easily one of the best schools I have ever been to. Unlike in other schools where teachers shout a lot and boss students about, at Kingsley the teachers are strict but also really kind. Behaviour is really good at Kingsley too and lessons are literally never interrupted with poor behaviour as everybody just wants to learn and focus on their studies. I have not had any problem with bullying at Kingsley and I have found it really easy to make friends. I love it here.

#### **Dalia (Year 12)**

'I like being at Lift Kingsley because the teachers are really nice and friendly and they explain everything in great detail. This allows us to really enjoy lessons. Students are really friendly and polite and their behaviour is excellent. I really recommend it to future students. It is a really happy school' – Dalia (Year 12)

### **Parent views**

#### **Mr & Mrs Singh (Year 10 Parent)**

'I did not choose Lift Kingsley for my daughter, as my son had gone to a different local school. We had not gone to the open evening, and were very worried initially as we knew nothing about the school. I contacted the school, arranged to visit, and was very surprised. The school was so quiet and in every classroom students were working hard and had a good relationship with their teachers. My daughter has had an excellent education at Kingsley. Her teachers are strict with her and expect very high standards. I am so happy with Kingsley!

### **Mr and Mrs Fernandes (Year 12 Parent)**

'Our experience at Lift Kingsley has been very positive. The school has improved so much. My son and daughter come home from school full of excitement about what they have learned each day, and they receive excellent feedback and support from their new teachers. In particular, Maths, Art, Science, History and Geography are excellent. Both of our children have also taken part in many extra clubs after school. The Drama and Music teachers have run so many performances and shows and it is just brilliant to be able to see the confidence in our children grow as they act and sing. Kingsley has given our children so many new opportunities and experiences. I recommend it fully; it is easily one of the best secondary schools in Hounslow.'

### **Alumni**

'What I love about Lift Kingsley is that there really is a family feel. Students and staff are so connected. At Kingsley, we are together by circumstance but united by choice. The teaching here is of a high standard, and has risen to allow every student to find their remarkable. Everybody is polite, behaves and wants to learn. This is such a great school, I would encourage students and families to come and look around, you cannot fail to be impressed'. ZG

Lift Kingsley is a school where everybody is valued and where students are supported to embrace new experiences, new subjects and new friendships. In Year 7, I was a bit daunted when I joined but I quickly settled in as it is such a friendly school and there was great support. I have made great friends and the teaching here is terrific. The last two year's in particular, we have had lots of new experienced teachers join and they really go the extra mile. Kingsley is such a happy school, staff enjoy working here and students love learning here. I recommend Lift Kingsley to any student looking for a secondary school'. CA

'I did not choose Lift Kingsley as my first or second choice, and was worried when I was offered it. I came to visit on an open morning with my family, and in every classroom, students were working hard and enjoying learning and the behaviour was excellent. When I came to the Head Start day in the summer term, I made lots of new friends and I settled in really well. My friends from primary school who went to other schools took far longer to settle in and in fact one of them moved to Kingsley because I told him how great it was. I loved being at Kingsley because we studied so many different subjects and we had friendly teachers who really cared. We also had a lovely modern building to learn in and there were so many great clubs after school and at lunchtime to take part in – all for free!' - D
