Abstract: *A concise and factual abstract is required (maximum length 200 words). The abstract should state briefly the purpose of the research, the principal results and major conclusions. An abstract is often presented separate from the article, so it must be able to stand alone. References should therefore be avoided, but if essential, they must be cited in full, without reference to the reference list. Non-standard or uncommon abbreviations should be avoided, but if essential they must be defined at their first mention in the abstract itself. Abstract in italics, spacing 1, size 11, Font Georgia also include keywords. The number of words for the abstract is min. 150-200 words, which contain the problem, objectives, methods and results. Keywords are maximum five words that reflect the content of the manuscript. Immediately after the abstract, provide a maximum of five keywords, avoiding general and plural terms and multiple concepts (avoid, for example, 'and', 'of'). Be sparing with abbreviations: only abbreviations firmly established in the field may be eligible. These keywords will be used for indexing purposes. (Georgia, spasi 1 dan 11pt).*

Keywords: *Keywords are maximum 5 (five) words that reflect the content.*

Abstrak: Penelitian ini bertujuan melihat lebih jauh ruang dan peran perempuan dalam perkembangan dakwah di dataran tinggi Gayo. Penelitian ini menggunakan pendekatan deskriptif kualitatif. Teknik pengumpulan data menggunakan wawancara dan observasi. Penentuan informan dilakukan berdasarkan teknik *purposive sampling*. Jumlah informan yang dijadikan sebagai sumber data primer pada penelitian ini terdiri dari lima orang: satu orang mewakili tokoh adat, satu lainnya mewakili tokoh agama, dan tiga informan mewakili ulama perempuan. Hasil penelitian menunjukkan bahwa dakwah yang dilakukan perempuan di dataran tinggi Gayo meliputi ceramah pengajian, penyuluhan, pendidikan baca Al-Qur'an, dan pembinaan ekonomi. Dakwah yang dilakukan perempuan dalam masyarakat di dataran tinggi Gayo selama ini masih terfokus pada kaum perempuan sendiri, sangat minim yang bisa menjadi pendakwah di muka umum (laki-laki dan perempuan). Ini disebabkan masih kentalnya larangan budaya dan adat istiadat dalam masyarakat Gayo. Jumlah tokoh pendakwah perempuan di dataran tinggi Gayo masih sangat kecil dan butuh adanya program kaderisasi ulama perempuan di masa mendatang. (Georgia, spasi 1 dan 11pt).

Kata kunci: Perempuan, Dakwah, Gayo, ceramah, pengajian.

A. Introduction/Pendahuluan

The introduction section contains the background of the problem with data taken from reliable sources, complemented by various previous research journals, research context, and research objectives. The introduction section for conceptual articles contains a reference description of the context of the problem containing interesting things (controversial, unfinished, and new developments) and a brief formulation of the main points to be discussed. All parts of the introduction are presented in an integrated manner in the form of paragraphs. The introduction section does not need to be given an introduction sub-heading. Bibliography using body not (Nasution, 2003) In chapter one also contains previous research, conceptual theories and theories used in research. (1.5 spasi, font 12 Georgia).

B. Research Methods/Metode Penelitian

The research method section contains a paragraph description of the type of study, object, subject, data collection techniques, data analysis techniques that are complete and methodologically relevant to the research design that is actually carried out by the researcher. (1.5 spasi, font 12 Georgia).

C. Results and Discussion/Hasil dan Pembahasan

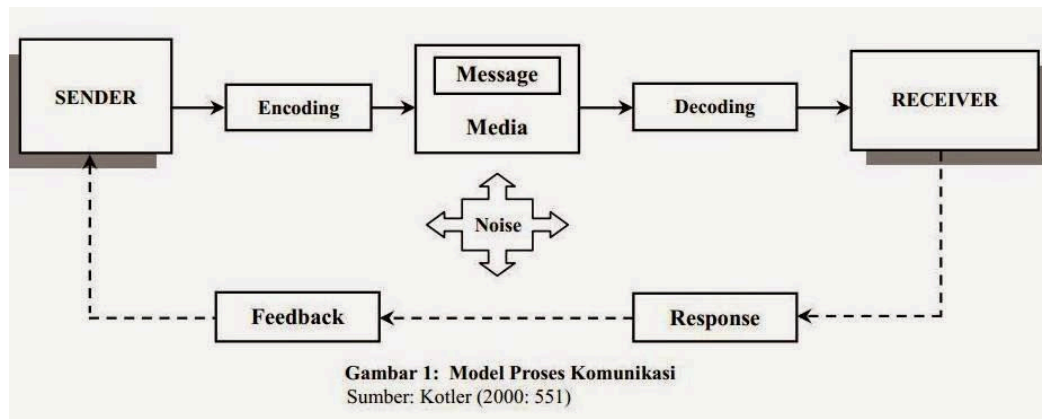

Research Results

The results and discussion section, trying to show clear and useful findings, contains scientific analysis and synthesis as well as credible reference support. If there is a table, it should be without vertical lines, the table title is written above the table, left line, 12 Georgia font, bold and space 1, the source is written below the table. While the title for the figure is written below. Images can be in the form of graphs, diagrams, or photos. (1.5 spasi, font 12 Georgia).

Table 1
Gender of Respondents

No.	Gender	Frequency
1	Female	25
2	Male	25
	Total	50

Source: Research Results

Discussion/Pembahasan

The discussion contains the results of new thinking that will have an impact on science and society, the discussion seeks to interpret the results and comparisons with theory and / or similar research results. The core or discussion section for conceptual articles contains exposure to the author's analytical, argumentative, logical, and critical thinking. The presentation of the discussion contains the author's stance or attitude towards the problem being discussed.

D. Conclusion/Kesimpulan

The conclusion section contains the results of new thoughts that will have an impact on science and society, the conclusion contains research findings in the form of answers to research problems and is the essence of the results of the discussion.

Bibliography/Daftar Pustaka

he bibliography is compiled using reference applications such as Mendeley or Zotero with the American Psychological Association (APA) format. Sources can be books, journal articles, essays in collected works, and the internet and are arranged alphabetically A-Z.

*Contoh daftar pustaka

Additional information:

Word Count and Reference Rules The minimum word count for a journal is 3,500 words and the maximum is 4,000 words. The minimum number of references is 20 (60% from journals and 40% from books), and any other references (other than journals and books) are permitted without any limit.

Jumlah Kata dan Aturan Referansi

Jumlah kata dalam jurnal minimal 3.500 kata dan maximal 4.000 kata
Jumlah referensi minimal 20 (60% persen Jurnal dan 40% persen buku)
dan untuk referensi lain (selain jurnal dan buku) diperbolehkan tanpa ada batas jumlah.
