

Talkative App - Definition of Done

Functional Criteria

1. All Features Implemented : All planned features, including user registration, chat rooms, real-time translation, privacy settings, and conversation prompts, have been implemented and thoroughly tested.
2. Cross-Platform Compatibility : The app functions seamlessly on both iOS and Android platforms, meeting performance and usability standards.
3. User Registration and Profiles : Users can successfully create profiles, customize privacy settings, and update their information. Data is stored securely.
4. Real-Time Translation : Real-time translation of messages in different languages works accurately and efficiently.
5. Chat Rooms : Users can create, join, and participate in chat rooms. Messaging is fast and reliable.
6. Privacy Settings : Users can control who can see their profiles and join their conversations. The privacy settings are user-friendly.
7. Conversation Prompts : The app provides conversation prompts to enhance engagement and meaningful interactions.
8. User Reports and Blocking : Users can report inappropriate behavior and block other users, ensuring a safe environment.
9. User Feedback Loop : A feedback mechanism allows users to provide comments and suggestions for improvement.

Non-Functional Criteria

10. Performance : The app is responsive and performs well even under heavy user loads.
11. Security : User data is protected with robust security measures. End-to-end encryption is implemented for user communication.
12. Usability and Accessibility : The app is designed with a user-friendly interface and is accessible to a wide range of users, including those with disabilities.
13. Scalability : The app can scale to accommodate a growing user base without compromising performance.

Quality Assurance

14. Testing and Bug Fixes : Extensive testing has been conducted, and all identified bugs have been fixed.

15. Documentation : Detailed user documentation is provided, including FAQs and user guides.

User Feedback and Approval

16. Positive User Feedback : User feedback from surveys and early users indicates satisfaction with the app's functionality and usability.

Co.Lab Success Metrics

17. Functional Prototype : The app meets the Co.Lab success metrics by having a fully functional prototype ready for demonstration.
