

MTSS Community of Practice 2021-22 Schedule

The purpose of the MTSS COP is to explore topics of interest, to provide technical assistance and support for implementing best practices in MTSS, and to build a collaborative network for educators throughout Montana. Following each presentation, participants will have an opportunity to ask questions and share ideas.

If you miss any of the topics or would like to go back and rewatch a session you will find these at the MTSS Community of Practice website:
