

How to Set the Google Drive Sharing Link to the “Editor” Mode

Below is a demonstration of how to get the Google Drive link to a video file and set the link to the “**Editor**” mode:

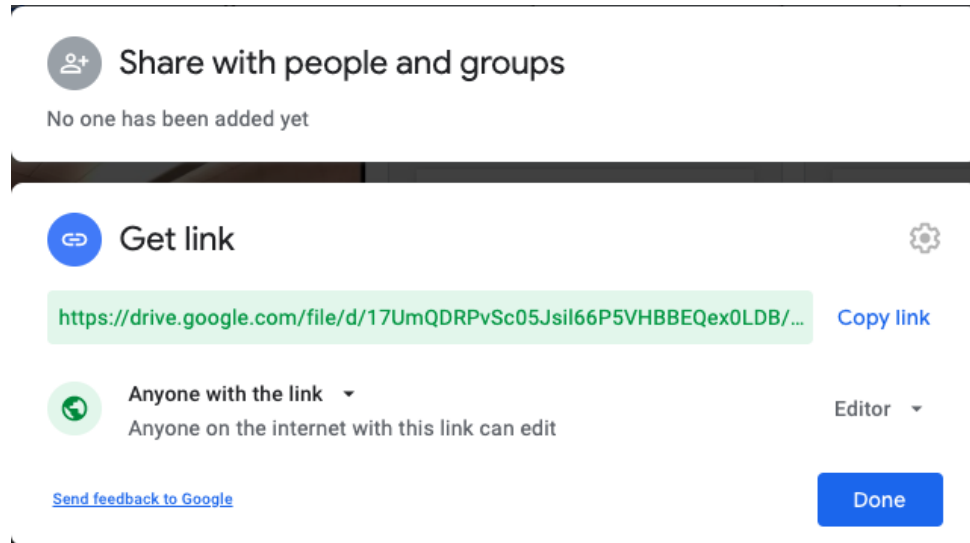

- 1) Upload a file to Google Drive:

- 2) To get the link to the video, right click the pertinent file and choose “**Get Link:**”

3) Set “**Anyone with the link**” as “**Editor**,” as shown below, and click “Copy Link:”

Provide the link in the Qualtrics survey form.

Please note that the information submitted to Google Drive is stored in the United States, and you should remove identifying information, such as your name and student number, from your submission there.
