

Submission ID: **237**

Title: **Exploring the Ethical Principles of the Scholarship of Educational Development**

Presenters: **Jill McSweeney, Laura Baecher**

Topic: **Research & Scholarship**

Burden

Giving choice on ways to relay data

Providing initiatives that are incentivized

Conduct focus groups and celebration together

What data collection methods can be used that are easier? We do more of the data collecting, like going into their LMS course and analyzing as opposed to the instructor doing this work.

Privacy and Anonymity

Share with stakeholders

Undue influence

Impacting instructor SETs
