New Moon in Capricorn - All Day

Committed to Your Core

- **Prune back any half-hearted ideas** that distract you from moving a bigger project with more potential forward in the future
- **Focus on your center**, core structures, foundation, and building further security for yourself this year
- **Create a master to-do list** that focuses on the money-making activities you need to achieve over the next two weeks to secure your income
- **Invest in self-care** to show your body full appreciation for being the vessel that helps you achieve your goals

- **New Moon:** Low energy, purging and planting seeds, new beginnings

If you're high energy: This moon in Earthy Capricorn inspires us to devote our energies to starting fresh with a new work ethic that matches our potential. If you feel that you can buckle down on more productive work sessions, the timing is perfect for keeping you focused and disciplined. If you've been away from your business or a project for some time and want to get back into the swing of things, this moon is here to help. It encourages us to get back up on the horse and re-commit to a project that we want to see through to completion over the next two weeks.

If you're low energy: Earth moons are good for checking in with the physical body and tuning into your needs. If it's difficult to address the long to-do list you have, the best thing you can do is tackle 1 item maximum. In what ways can you attend to your needs through routines and consistent effort? What can you do to honour your flesh and bones? Bougie Baths? Millionaire Massages? Lean into your self-care routine and take responsibility for your well-being. The earthly vessel through which all of your business genius flows must be nourished!

Moon Boosts:

Capricorn Sun, Venus & Pluto

- **The Sun** brings a vibrancy to the structure/routines in our lives as well as the inspiration to create new, nourishing ones. We're more business-focused than usual and might find our natural leadership qualities shine
- **Venus** offers us a chance to focus on our self-care and money-making potential. This transit reminds us that we can create abundance with our own two hands. Step into that feminine boss energy!
- **Pluto presents a prolonged crisis** that we become conscious of and must purify from our business practices. We might see the painful results of what hasn't worked thus far and must do the gritty work of alchemizing that professionally.

Taurus Uranus Rx

- **Rx: Slows planets down** and calls us to revise, review and rethink our approach and strategy.
- What **physical tools and services** do we need to upgrade in order to create more sustainable income and lower costs in our business?

- Best for **innovating new technologies** that help us make money online
- Entire **restructuring of the global economic system** and thus will impact personal finances and what role we play in the global market

Social Media & Clients:

- Focus content creation on productivity in general, improving systems and becoming more 'efficient.
- Discover how your clients and audience might be struggling with their own businesses, the goal is to see who you are most equipped to help
- Step into authority by showing others what you have achieved thus far and how you can help them with creating tangible results. Show your knowledge and share your expertise!
- Offer support to clients in a way where you can team up and brainstorm practical solutions to their problems rather than emotional commiserating.

Mars Square Jupiter

During this transit, we will experience an upsurge of energy and motivation to begin new projects, commitments and to take the necessary steps (even if they are out of our comfort zone) to bring about the results we want, and achieve long-term success. It is not a period of acting impulsively, but instead to strategize your next steps. We can be pulled into fights and disagreements now, but again strategy will play out the best in the end. Most disagreements and fights you enter now are not worth the energy invested as it could be far better used to move you further along during this powerful transit period.

Void Moon begins at 8:41 pm PST [Capricorn to Aquarius]

- Emerging out of intense productivity and solitude towards socialization
- **Hold off:** on any big announcements/launches as this energy makes us distracted and like we're lingering in limbo
- **Earth to Air** = Introducing flow and balancing heavy with light energies

Tuesday, December 7

Waxing Crescent in Aquarius begins at 3:49 am PST

Automation & Tech Mastery

- **Embrace the high minded**, intellectual vibes of this moon to open yourself up to learning and playing with new information
- **Identify the gaps** in your knowledge around automating your systems and find out how you can fill those gaps with experts and research
- **Update/assemble the 'tech' aspects** of your business (website, email sequences, course platforms, video equipment, etc.)
- **Waxing Crescent:** Beginnings of momentum, increasing productivity

If you're high energy/in a work mood: Without judging yourself for what you don't know, consider upgrading your knowledge through free self-study, a new course or just tinkering around with what you've got. The most beneficial learning you can do under this Aquarian influence will be technological in nature, but learning anything (even a hobby) is boosted now. If you're feeling overwhelmed with all the things you want to learn though, focus on one or two new subjects and stick with what is most important for helping you progress forwards with a project. If need be, consult and speak with experts.

If you're low energy/in a self-care mood: The energy of this moon can be as intense and exhausting as it is inspiring. One of the best uses of it can be to lean into your friendships, your community and openly express yourself in a safe space where your mind is valued. What you have to say matters and if coming

out to your public audience feels difficult to do, practice this with those you're close to.

Social Media:

- Spend time sharing your philosophy with your community, show them why you do what you do, and why it's important. How is your work/method/principles different from others?
- Connect with people whom you admire, showcase people in your community doing great work.
- Talk about people/books/resources that have inspired you. Share those resources with your community.
- Talk about the ripple effect of doing the work (you help with), how it makes families, communities better when we all grow.

Moon Boost:

Gemini North Node gives us a feeling that we are moving in the right direction when we honour the role information and communication plays in us building community. In what ways can we listen and learn from others?

Aquarius Saturn & Jupiter

- **Saturn** brings stability and foundation to our communities so that the networking efforts that we make will build us up together.
- **Jupiter** imbues us with hope and optimism for humanity and we might be more interested in making big moves in our communities as a result.

Mercury Square Neptune

This can be a disorienting and confusing transit. We will be more prone to misunderstandings, miscommunications, and needing to re-word our words, directions, and ideas. We may feel more spacey than usual and may find focusing difficult. It's important during this transit that we try to keep our heads clear and our feet on the ground. Any sort of idealizing or sugar-coating anything including our own words and perspectives can make situations worse.

If you find that you have to communicate or disagree with something or someone during this transit, make sure you stick with the facts, don't distract, evade, or withhold information as it can come back to bite you later or add to the confusion and misunderstanding which can make the situation or outcome no what you'd like.

It's important that we try to speak simply, and to keep our work, conversations, and next steps as simple as possible during this transit. What we're seeing is not as it appears and we may in fact choose what appeals to us over what is actually helpful.

When it comes to business, things may not be as they appear, or people may not be who they appear to be. It is best to avoid any major business decisions or dealings during this transit if you can. If you can't make sure that you have as much in writing, use bullet points, and short clear sentences and make sure that you have all the facts before moving forward. If you have to come to an agreement it might be best to have legal or business counsel to go over the documents or agreements or share them with a friend so that you don't miss anything important.

We will be more spiritually and metaphysically inclined during this time, so this can make a great opportunity to pursue spiritual pursuits or subjects, but make sure that you keep your feet on the ground so that we don't get carried away with the fog. Creative or artistic projects can get a nice boost from this transit.

Be mindful of trying to escape, into ideas, people, numbing agents (sex, drugs, alcohol), sleep, or other coping mechanisms, they tend to have a stronger influence at this time and their outcomes longer lasting.

Waxing Crescent in Aquarius - All Day

Thursday, December 9

Void Moon from 1:59 - 6:53 am PST [Aquarius to Pisces]

- A suspended space between the logical and artistic minds
- Good time for daydreaming the bigger picture of your life
- **Hold off:** on any big announcements/launches as this energy makes us distracted and like we're lingering in limbo
- **Air to Water** = slowing down and feeling

Waxing Crescent in Pisces begins at 6:54 am PST

[Combined with First Quarter Phase]

Friday, December 10

First Quarter in Pisces begins at 5:37 pm PST

Heightened Intuition

[Combined with Waxing Crescent Phase]

- **Channelled writing**, artistry and energy work are highly potent
- **Vision boarding** can plant psychic seeds
- **Practicing non-attachment** with our desires can dial us deeper into more advanced spiritual abilities
- **Rest and rejuvenate** your body, mind and soul
- **High sensitivity** both emotionally and spiritually is present with this moon
- **Waxing Crescent:** Beginnings of momentum, increasing productivity
- **First Quarter:** Active momentum, increasing energy, building & progress

If you're high energy/in a work mood: This is a time of highly active intuition. You may find your dreams have been rather intense over the next few days. This is a time of an active dream world where our reality appears to be merging with our dream world. Our subconscious has a direct line to our conscious mind and we are building a bridge between what could be, and what is. A clear pathway may be forming on what needs to be released, cleared, healed, or stepped into at this time, and your focus or 'need' for a step-by-step framework is dissolving.

If you're low energy/in a self-care mood: If even performing rituals feels like too much for you right now, let yourself do nothing at all. Pisces is the sign of complete release and sometimes the best way to connect with the divine is to simply relax in all senses of the word - even from the need to connect to spirit at all. It may seem ironic, but let go of all expectations and routines can be liberating.

Social Media & Clients:

- Invite your audience to share their creativity and passion projects, to connect with a community of artists and express themselves openly

- These moons are times of emotional vulnerability that can be channelled into creative work
- Our boundaries might be thinner now. Try not to take on the burdens of others since you might feel like an emotional sponge
- Share your healing gifts but keep in mind when it's necessary to reel yourself back and preserve well being

Moon Boost:

Pisces Neptune

- Dreamy, creative, forgiving, compassionate, boost to intuition and spiritual abilities.

Mars in Scorpio encourages us to go for exactly what we want, and not be shy about it. To decide clearly what you want and go for it with ferocity.

Saturday, December 11

Void Moon from 11:39 am - 1:45 pm PST (Pisces to Aries)

- Vulnerable, emotional space, great for self-care sessions
- **Hold off:** on any big announcements/launches as this energy makes us distracted and like we're lingering in limbo
- **Water to Fire** = cleansing and releasing

First Quarter in Aries begins at 1:46 pm PST

Make Your Mark

- **Share strong thoughts or take action** in a way that highlights your expertise and ability to trailblaze in your industry
- **Promote, launch and market** your 1:1 services, programs, courses
- **Excellent energy for** content creation, brainstorming, initiating a project
- **Prioritize your needs**, desires and the self-care required to balance out your fiery progress in business - beware of burnout
- **First Quarter:** Active momentum, increasing energy, building & progress

If you're high energy: The combination of First Quarter with the strong, creative energy of Aries is lending us a colossal amount of courage and creative grit. If you've wanted to push a project forward, make progress, launch, etc, this is an excellent moon to show your face and make your mark in the world.

If you're low energy: Tune into the self-focused, loving self-care vibes of this moon, allowing it to remind you that your needs matter. If you've wanted to prioritize yourself and what you need to be fully functional in your business, this is a good time to be honest with yourself. It's ok to need self-care and try not to compare yourself with others. This is about your unique needs and honouring them fully.

Social Media & Clients:

- Use this to generate excitement, make an announcement, have a flash sale, open a cart, kick off an event, close a cart,
- Get people to sign up for an event, take action, or rally behind a cause that's important to you.
- Talk about anything that you and your audience find irritating, frustrating or plain piss you off about your industry.
- Encourage building up your people as they face a breakthrough.
- Create a clear, concise Call to Action to make it easy for your people to say yes to your offer.
- Think short bursts, and only on what's most important to MOVE you and them FORWARD.

Moon Boost: Chiron Rx in Aries

- **Chiron:** We're focused on our own wounds and how they've held us back from living our authenticity. How can we move through them and heal?
- **Rx:** Slowing down in our approach and looking deeper at whether we feel deserving of healing at all.

Sagittarius Sun, Mercury & South Node

- When the Sun and Moon align in fire, we're growth-oriented and feeling the time of year when we're contemplating the year ahead of us. This energy urges us to look deeper at the way we show up in the world (Sun) while also considering our needs (Moon).
- **Mercury:** Our minds become expanded in Sagittarius and we're calculating all the possibilities and visions for our business. Expect lots of daydreaming!
- **South Node:** The karmic release point for society right now is around letting go of believing we have everything figured out and have mastered our experience. The more we humble ourselves by understanding that we are forever learning, the more wisdom we actually gain.

Sun Square Neptune

More than likely, your vital energy may feel low and sluggish today, especially as this aspect aligns exactly (though we may feel it for days or weeks before and after). The key here is to tune in with our bodies and recognize where we are trying too hard to stubbornly live out decisions that aren't actually good for us. The best thing we can do now is to take a breather and rest, being gentle with ourselves even when that feels difficult to do.

Venus Conjunct Pluto

With this transit, we are being drawn to the deeper darker questions, a search for meaning, on the areas of our lives that are most important to us. We want to know that when we ask these deeper questions that we won't be met with more

questions or emptiness, but the depth and insight we have been needing and craving.

Where have you been just coasting the surface in your life? Where have you been wishing you could just go deeper, to open up, to lose yourself, or connect in a very profound way? With this period there is a tearing down of walls (the ones we've built and the ones others have built), it is an acknowledgment that whatever is hidden behind those walls needs to be seen, and revealed and whatever isn't, must end. It is the end of our illusions, and a commitment to see something through to the end (whenever that may be).

In relationships, this is the ultimate seeking for deep understanding and connection. To be seen and to reveal to another our whole selves. To have time away either with another person or with ourselves, to some deep soul searching. To find out what it means, what we're doing (in our personal lives and businesses, and if it's worth going deeper into).

First Quarter in Aries begins - All Day

Ongoing Transits

Neptune Direct in Pisces (December 1, 2021 - March 21, 2022)

Dreamwalker

Neptune is making its way through Pisces where it will remain until 2027. This Journey it is taking is quite extraordinary and only happens every 165 years. Neptune in Pisces is here to connect us not only to our intuition but to our subconscious and to all of life on the planet. Neptune is the ruler of the seas (all water on earth) and Pisces is the fish that lives in them. Like a fish we don't notice our environment we aren't aware we're 'IN water' and yet without it, we would not be. All living beings on Earth need water and are made up of water to some extent. We are 70%+ water, and this transit is here to wake us up to who and what we are and the damage that is being done to the world around us. To help us question what is real (as Neptune also rules illusion and delusion) and the ways we have been lying to ourselves or believing the lies of the 'mainstream'.

We have in many ways disconnected ourselves from all of life ignoring the way we are damaging the planet and how each choice we make every day has an impact because we feel sad and depressed at the state of the world, its problems feel too big to solve. But when it comes to Neptune in Pisces the solution comes from within, to acknowledge our internal environment and discern the true from the false within us. To ask ourselves deeper questions and to receive the answers from within us. TO remind us that WE are a part of this source, just like all drops of water are a part of the bigger ocean, we are not separate. Often when life and the state of the world become overwhelming we try to distract ourselves by focusing on things that cannot nourish us, that cannot fulfill the deep hunger and longing we have inside of us for meaning and healing, but with this transit we are being called within, to find our own nourishment and sustenance from within (rather than from outside of us which is contributing to the damage and harm we are seeing in our planet and world on all levels).

This is a time to cultivate your intuition, to listen to your dreams, and to work with yourself to dive deeper into understanding the mechanism and patterns you are repeating (Pisces is also the natural ruler of the 12th house, which is where we hide things from ourselves, and where our subconscious and trauma reside). The way to heal the planet is by more of us working with this unknown and often scary part of ourselves and bringing awareness and healing to it. This will create

a ripple effect that has the power to change and heal the world to a magnitude that we cannot yet comprehend. If you are feeling drawn to lean into your own intuition to use it in your work, to use it to work with clients, this is your nudge. The veil between you and source (your intuition) has never been thinner than it is right now.

Mercury in Sagittarius (November 24 - December 13, 2021)

This transit is excellent for amplifying our communication, connections, and enjoyment of others. When Mercury moves through Sagittarius we express ourselves with excitement, and enthusiasm and are open to passionate exchanges, discussions, and debates. Mercury helps us to put words and a clearer vision to what lights us on fire and keeps us going in our work. This is a great period to broaden your horizons, explore new studies, take a trip, or simply explore parts of your city or neighbourhood and communities that you haven't yet met.

Sun in Sagittarius (November 21 - December 21, 2021)

During this transit we are inspired and feeling a heightened sense of creativity, passion, adventure, and need or personal growth. We want to experience the fullness of our life, and expand our horizons. We know that our exploration of the world will help us to understand and unlock aspects of our own self. We feel alive when we are on the move and free. It can be helpful to focus on the big picture of the smaller aspects of our lives, and projects.

Venus in Capricorn enters Pre-Retrograde Shadow

[November 17 - December 19, 2021]

11- 26 Degrees Capricorn

In the shadow period of a Venus Retrograde, we are beginning to review our relationships at a much slower pace than what we're used to. We might have old commitments or relationships even show up, just so that we can make a more mature choice about them. We may not see the effects of it right away but make no mistake, it will eventually come even if that's after Venus goes Direct.

Some part of this whole transit is calling you to level up professionally and the relationships both business and personal will be put on a chopping block. Are you investing energy in connections that have a return on investment?

Venus in Capricorn doesn't desire the kinds of fairytales we see in stories. It thrives in the long, slow-building of trust, sensuality, and intimacy through action. It's less interested in promises and words and far more attracted to intelligent decision making and maturity. Real love to this sign is in weathering the uncontrollable elements of life together and coming out stronger together as you grow.

This same philosophy can be applied to your business, in the way you work with it as a partner. Are you doing your due diligence when it comes to being a responsible entrepreneur? Staying organized? Doing your taxes? Organizing your finances? Growing and generating new ideas? Making sure your people are happy? Being a business owner comes with some heavy responsibility but this transit encourages us to be willing to take that weight on and trust that as we grow we will find ways to be smart and make it lighter. This is the commitment we make to being our best in business.

Finances:

Venus Retrograde (and pre-retrograde) is here to draw our attention to how and where we're spending our money and what we value. Monitor your leaks, notice where you spend, and whether you are getting your money's worth. Once Venus goes retrograde, hold off on major purchases or you may find you buy

something that no longer fits who you are, and who you are becoming, or the future you had in mind for yourself.

Once Venus goes direct, we can then put all of our Venus relationship and financial lessons into practice and take some more significant action.

Venus in Capricorn [November 5 - 17, 2021]

Venus is all about love, beauty, relationships (with ourselves and others - think self-love and acceptance), and money. Capricorn is about rules, hard work, and commitments.

Business:

During this transit, we may be encouraged to re-evaluate our self-worth, how we value what we bring to our work, whether we are getting the validation and acknowledgment we want from our work, and assessing your current role, direction, and path, to see if it is offering the fulfillment you need and desire. This can help you to harness the courage and intention that's needed to make some major business decisions that will help you to reach new heights in your work and success.

Relationships:

This transit is asking us to be willing to step into difficult conversations in our relationships with the understanding that relationships that last can withstand facing up to difficulties with courage and a willingness to do what's needed. It is asking you what you are committing to in your relationships (both intimately and professionally). How are you showing up and showing that you care and value others (and yourself)? Are you willing to put in the hard work to earn the trust and loyalty you desire? Are you willing to do the inner work on yourself, to love and care for yourself? This is a period that encourages us to stick out difficulties with the intention of trying to make them better. It's that without a little elbow

grease we aren't going to have the types of relationships we desire. That without the hard conversations (with ourselves and others) we cannot have the level of authenticity we crave. The types of relationships that can traverse the challenges that life throws at us. If you tend to run away when things get hard, your reward now will be in sticking it out and staying in the room. This is an opportunity to take things deeper and connect on an even more profound level. If you are single, this transit can highlight our desire for a long-term relationship. So it can be helpful to ask yourself what difficult or scary things have you been unwilling to do, on your own or in a past relationship? The answers to this can help provide the key to what's next for you in terms of forging the relationships you desire.

Mercury in Scorpio (November 5 - 24, 2021)

During this transit, we will be drawn into the mystical darkness within us and others. We will crave to understand the more supernatural and spiritual qualities of our lives. This will be explored through deep and meaningful conversation, uncovering our own mysteries, and darkness, unconscious patterns, and psyches. This is an invitation to go more deeply and to release and let go of what no longer serves, in order to grow, develop, and be reborn into something new. We will feel more curious than usual about these particular subjects. We can find our fears, patterns and triggers heightened during this time as we work with its medicine.

Mars in Scorpio [October 30 - December 13, 2021]

Baby come and light my fire. Mars in Scorpio is a period of fierce intensity, especially in the area, it's transiting in your chart. In general, Mars in Scorpio

encourages us to go for exactly what we want, and not be shy about it. This can create challenges in regards to jealousy in relationships, flings, affairs, or a desire to come out of the closet and not hide our desires, passions, and needs, both sexually as well as in any area that we feel passionate about. In regards to work, this is a time to decide clearly what you want and go for it. This can be a period where we are relentless about what we want and may push ourselves to extremes so be sure to have some time scheduled in for 'downtime' or rest regardless of what project you decide to focus on. There is a great passion and determination when Mars is in Scorpio, this is a great opportunity for success so long as you are clear on what you're passionate about - if we don't have the passion and clarity we may direct this intensity inwards at ourselves which can create a great struggle and lack of compassion towards ourselves. The message with Mars in Scorpio is don't overthink it, pick something and go for it, you will make far more progress than you can imagine, there's no need to overcomplicate it.

Sun in Scorpio (October 22 - November 21, 2021)

During this transit, we will be drawn to our inner world, to our intuition, and to spiritual and metaphysical teachings and journeys. Scorpio holds the veil between worlds, between life and death, dark and light, between wound and healing. It is an invitation to go more deeply into our water and intuitive side and see what messages we can find. If you have been craving a realness, to be more in tune, and connected with yourself and the spirit world this is the perfect transit to dive in and allow it to take you where you feel most drawn.

Jupiter Direct in Aquarius (October 17 - December 28, 2021)

JUPITER IN AQUARIUS (DIRECT - POST RX SHADOW) 22 AQUARIUS

POST SHADOW ENDS JAN 8, 2022 AT 02 PISCES

In the late 90s, Apple adopted a simple yet powerful slogan: Think Different. In two words, Apple extended a challenge to a wide audience for adopting an ethos of alternativity. While Jupiter is in Aquarius, the cosmos are asking the same of you. Instead of rethinking the modern computer, though, Jupiter is asking you to examine the beliefs that you hold as parameters for perception. Yes, that's right. In astrology, a belief functions as a parameter for perception, an indirect input for the show we call reality and the story we call life. The way this works is pretty basic. It involves turning a common expression on its head. Instead of saying "I have to see it to believe it," during this time, we can say: "I have to believe it to see it" because, in manifestation, we work backward from our realized wish.

If we can figure out which beliefs we have installed (first), and how they operate (second), then we will have successfully navigated Jupiter in Aquarius. If, on the other hand, we find ourselves second-guessing our beliefs or feeding into an unhealthy reality picture, then perhaps we have more work to do. During this time, the onus of belief identification is completely on us. After all, we are the ones who live inside our minds. How do you plan to think differently? During this astrological moment, which beliefs are up for review? With Jupiter in Aquarius, we are being asked to renegotiate our relationship to manifestation itself, our ability to magnetize or attract that which we desire. If you feel like you are lacking in this area, perhaps it is time to strength test your belief (like a muscle test but for your soul). How badly do you desire what you desire? If I told you that your treasure is available but it is located at the top of a steep mountain, would you climb it?

Remember, beliefs can be subtle. Everything from the assumptions you make on entering a Taxi to the faith you rely on when signing a business deal. Sometimes, belief is ungrounded energy, reaching for security or certainty. No matter the way belief shows up for us, we are in a space of review, curiosity, and understanding during this transit. Not only are we ready to think differently, but we are also taking the actionable steps to re-engineer our lives along these lines, from the immediate and the practical to the subtle and the energetic. This is a time for re-invention, a time to think differently, to turn your industry on its

head and do it differently. It's really a time to re-invent the wheel, I mean why do we need wheels when we can fly?

Saturn Direct in Aquarius (May 23 - Oct 10, 2021)

06° Aquarius 53'

SATURN DIRECT - POST RX SHADOW ENDS JANUARY 15, 2022 AT 13 AQU 31'

As Saturn returns to its forward movement in the sky, our minds are more or less done reviewing information and now we're much more focused on how we can properly apply the lessons we're learning. Without testing our ability to stay consistent and disciplined in how we're showing up in your community, we don't truly know our mettle. Embrace this retrograde transit and its shadow period as a training ground for the mind, where you learn to think with more complexity and gain access to the profound innovative downloads that come with the Aquarian, future thinking mind.

SATURN IN AQUARIUS

This transit will last for the next 2+ years. During this time we will see a surge in the sale and marketing of information, a disassembly of old traditional ways of education, marketing, and media, and an increase in innovation, discovery, and new technology. We will also see an increased interest in Astrology, Psychology, and other consciousness-expanding tools, techniques, practices, and systems. This will be a period of great change. With this transit, there will be a shift from personal interests and wants to what is best for the planet, humanity, and the collective. We will see an even greater impact from our personal choices on the whole of the planet and all species. This will highlight the need for greater personal responsibility and initiating further change in regards to the environment, waste, public health, social supports, technology, and the rules governing it and the impact of the 'economy' on global, personal, and environmental health.

2020-2023 Saturn Return for those born between

February 1932 - February 1935

January 1962 - December 1964

February 6, 1991 – January 8, 1994

Saturn returns to each sign once every 29 or 30 years for approximately 3 years. Saturn was last in Aquarius from 2/1932 to 2/1935, 1/1962 to 12/1964, and from 2/1991 to 1/1994. Saturn will again be in Aquarius from December 17, 2020 (after a brief stay there from March 21 to July 1, 2020) through March 7, 2023.

Saturn Returns are periods of great change, challenges, and adversity where we will feel the pressure to become more of our own person.

Venus in Sagittarius [October 7 - November 5, 2021]

Venus influences love and money, through our experience of this transit there is an increase in our desire for adventurous and demonstrative love and affection. We are inspired by taking risks, having a good time, extravagance, and feel more free, fluid and open to new experiences. We want more experiences, growth and are willing to test the waters a lot more than usual. This also applies when it comes to how we spend our money, and where we are investing it. We want to use our funds for more experiential, spiritual, philosophical and growth-based focuses.

Pluto Direct in Capricorn (October 6 - January 27, 2021)

26 - 24°

Pluto will remain in Capricorn until 2024, over the next 3 years we will see significant changes and transformations in all the areas that Capricorn rules such as governments, rules, foundations, regulations, currencies, economies, resources, money and legacies. This will not be a simple rebuilding or redesigning, the change will come through power struggles, the use of fear for control, uncovering the deep subconscious, and a willingness to surrender or risk great loss for a sense of purpose and meaning.

Pluto is here to help us transform ourselves, to find our purpose, and to remind us that freedom should never be taken for granted. We may find great conspiracies, abuses of power, and a need to stand up for rights (as rules and laws can be used as coercive measures by those wishing to gain more power and control). This is a time where we are reminded of what's important to us, and that we cannot remain complacent for the things that are of real value. Use these next 3 years to stand strong for what's important to you and to deeply inquire what you are willing to give up, sacrifice or surrender to live a life of real meaning and significance.

Uranus Stations Retrograde (14°-10°) (August 19, 2021 - January 18, 2022)

14° - 10° Taurus

look at areas of focus/events that occurred between May 3 - August 19th, 2021 to give you insight into what area of life this retrograde will be felt for you

Uranus rules rebellion, war, change, revolution, freedom, confronting fear, speaking our truth. It is 'the great awakener'. This retrograde highlights what doesn't feel aligned and where you're sabotaging and holding yourself back. Be honest about who you are and what you want. Go with your hunches/intuition. Uranus helps to clarify a new direction. Embrace change and 'not knowing'. This period often forces us to deal with our dark side, parts of ourselves that don't

align with our values. But if you allow this to move through you when Uranus moves direct you will have the opportunity to make a massive change. Watch out for: Following formulas, systems, and the 'norm'. Systems and structures can tend to feel suffocating at this time. Be careful to not interpret this as a sign that you're not capable or that you've made a poor choice. Personal changes may feel slow or difficult at this time. And the need to feel independent and rebel may be felt strongly right now. Uranus Retrograde can mean massive changes often in areas we weren't expecting or desiring, but it is for your long-term benefit. The truth will set you free. To see what area of your life will be influenced by this retrograde, see your chart and the current transits and locate what house Uranus transit falls under.

Chiron Direct in Aries [July 15 - December 19, 2021]

Meeting Ourselves Where We Heal

12 - 8* Aries

With Chiron turning retrograde in Aries, we are healing our relationship with all things Aries. From violence in the shadow to assertive action in the light, the energies of Aries are all coming to the fore during this time, requiring our attention to heal any distortions or misdirected lines of energy. In particular, we are examining any wounds we have around taking action, a hallmark of Aries. During this time, our ability to stand up for ourselves is coming into question, our existential courage. Also known as our will to exist, existential courage is a pronouncement of being, a statement of life. If you think back to recent times, has there been a moment where you wanted to act but did not? A time when you were going to stand up for yourself, but you held back? We all have these moments and perhaps less important than our response at the time is how we make meaning and move forward after the fact. As Chiron retrogrades, we continue to gain visibility into these moments of vulnerability while learning about ourselves. We continue to make sense of the healing story of our lives.

When we have existential courage, we are fearless, acting from a space of original boldness. When we are searching for existential courage, perhaps the

path is not as clear. The paradoxical truth is that despite what we think, we always have the courage that the moment requires of us, but we may not always be dialed into its frequency. If we think of consciousness like a radio dial, perhaps we are on a different station right when the moment comes. In this period of time, we are healing our ability to switch back to the other station, the station that supports growth, evolution, and development. As we perfect and grow this ability, we come into a deeper resonance with any healing that needs to take place. Not only do we identify the misguided assumptions that have been holding us back, but we transform them into energetic assets that do not weigh us down. On the contrary, they lift us up. No longer do we carry energetic weight around with us. Our only choice is to stand up for ourselves and if we can get to this space during this Chiron retrograde, we will have achieved a significant milestone.

NOTE: It's important to be aware at this time, as Chiron is the wounded healer, and represents the inner wound we all carry, we need to be mindful that we don't direct violence or harm at ourselves (with this being retrograde), that we instead focus on positive internal action to help ourselves overcome our wounds and pain. Often when it comes to trauma, the victim will internalize the reason for the trauma as being because of something they did, said, or are. When Chiron goes retrograde and in Aries none-the-less we may find more trauma coming up, especially in areas where we may need to defend or protect ourselves, or triggering our trauma responses. It is helpful to schedule in self-care, therapy, journaling, or things that help YOU to feel like you're taking an active stance towards your own healing.

Neptune Retrograde in Pisces (June 25 - December 1)

Dreamwalker

Neptune now turns retrograde at 23° - 20° Pisces

Neptune rules both sleeping and waking dreams, imagination, fantasies, optimism, and idealism (in life and romance). Review your opinions, values, and belief systems, listen to your gut. Work with the spiritual and mystical while keeping yourself grounded. Dreams, yoga, meditation, astrology, tarot, and deep

inquiry can be very healing at this time. Contemplate your spirituality and belief systems. Focus on your creativity and allowing what wants to come through to do so, unhindered. Let go of anything that feels heavy. Watch out for - unrealistic or fluffy thinking, seeing people, and circumstances as you want to see them rather than as they are. Overindulgence in numbing agents. Emotions may run high or over the top. To see what area of your life will be influenced by this retrograde, check the current transits in your chart and see what house Neptune is moving through for you.
