Jenni AI Affiliate Program Brief

Thanks for your interest in taking on this project! We are looking forward to the opportunity to collaborate and see the amazing content that you create! 👀

✍️ About Us

Jenni AI is a research/writing assistant that helps you write high-quality content in half the time. We have over 4 million users and have done this all in the past 2 years. We want to empower even more students with AI tools so that they can be more knowledgeable and persuasive. We believe that the future is written with AI, not by AI.

👍 Influencer Affiliate Program

We are looking for tech-savvy, influential personalities who want to help drive awareness and sales. Our affiliate program is an opportunity for influencers to partner with us, spread the word about Jenni AI, and earn a commission for every sale they help generate.

We will pay out commissions every month for all affiliates that are owed $100 or more.

👍 Creators That We Love to Work With
- You are a creator that has an audience composed of students or researchers (grad students are a plus!)
- You are excited by AI tools and the future
- You care about learning and don't want to promote "cheating tools" or unethical behavior

🤑 Program Benefits
- Competitive commission rates: 30% on all revenue contributed from your affiliate link

- Potential for long-term partnerships: We value our affiliates and strive to develop long-term, mutually beneficial relationships.

💬 Suggested Talking Points

1. Jenni AI helps you write essays/research papers 5x faster

2. You can upload PDF's, sources, and even previous papers and Jenni will use RAG (retrieval augmented generation), which means Jenni consults the sources as she writes with you, this results in much higher quality than ChatGPT and it is grounded in reality.

3. These PDF's are auto-cited (when applicable) so generations come out with links in where the sources came from. It's auto-cited in whatever style you like (MLA, APA, Harvard, etc).

4. Jenni also easily finds sources for you, if you are keen to learn more about any topic, just type '@' in the editor and Jenni finds relevant sources for you from journals and the web.

5. Jenni also has an AI Chat on the right side of the doc that you can ask questions as you write.

6. Lastly, Jenni gives suggestions as you write so you never have writer's block.
