PFAS Social Media Messages

Download a graphic from our PFAS GRAPHICS FOLDER. Each image matches with one of the messages below.

Replace @YOURlegistor with their social media handle for the platform you want to post on! **Tip:** Copy the content after the last "/" in the web address for their social media platform and add an "@" in front.)

Sample messages for Twitter/Bluesky/Facebook or Instagram.

PFAS don't belong in our homes. Let's pass S1504/H2450 to get toxic PFAS out of mattresses, furniture, carpets, and other products sold in MA. **@YOURlegislator** #BanPFASinMA

PFAS don't belong on our farms. Did you know that 40% of MA wastewater sludge is spread on farms and other land? And all of this sludge has PFAS? PFAS in sludge= PFAS in farm plants and animals = PFAS in us. **@YOURlegislator** #BanPFASinMA

PFAS don't belong in our drinking water. Two thirds of Massachusetts drinking water systems are likely to have PFAS at levels higher than those the Biden Administration;s EPA considered safe. **@YOURlegislator:** Support S1504/H2450 to protect our water. #BanPFASinMA #mapoli

PFAS don't belong in our bodies. Toxic "forever chemicals" are making people sick, increasing the risk of immunosuppression, liver disease, high cholesterol and some cancers. **@YOURlegislator:**

Please support S1504/H2450 to protect public health. #BanPFASinMA #mapoli
