frequently asked questions

CAN I MONETIZE MY VIDEOS IF I USE YOUR SONGS?
Absolutely! You just need to make sure that you always properly credit the songs. :)

- HOW DO I PROPERLY CREDIT YOUR SONGS?**
1. Find the song you want to use (listed alphabetically).
 2. Copy/paste the crediting info into your video description.

3. That's it!

CAN I USE YOUR SONGS FOR MY COMMERCIAL PROJECTS?

Yes! You just need to purchase a license for this. If you want to use my songs for projects outside of social media/YouTube (like commercials, television, movies or video games), just send me an email at info@rachelleycroft.com.

IS THERE ANYTHING I'M NOT ALLOWED TO DO WITH YOUR MUSIC?

You're not allowed to distribute my music (or any unauthorized alternative versions) onto any websites or streaming platforms like Spotify/Soundcloud/Apple Music/YouTube. But you can most certainly listen to them because they're already there!

HELP! MY VIDEO GOT A COPYRIGHT CLAIM FOR USING YOUR SONG.

Many of my songs are owned by copyright-free record labels who use the YouTube Content ID System to make sure that videos are properly crediting the song. If you see a copyright claim, I promise there's no need to worry. This is not a copyright strike & will not harm your channel in any way. The record label will simply check your video & then release the claim (as long as the song is credited properly). All of these songs are still copyright-free & you can still monetize your videos when using them! If the claim isn't released for some reason, simply dispute the claim within YouTube & include this note: *"Rachel Leycroft & her distributors have given me permission to utilize this song & I have followed the crediting requirements outlined by these copyright owners."* If you need any additional help, email me anytime at pr@rachelleycroft.com. :)

ARE ALL OF YOUR SONGS COPYRIGHT-FREE?

A few of my songs are owned by record labels who do not allow for free use of their songs, but I try to release as many copyright-free songs as possible. Every track in the crediting info document & within the song catalog is completely safe to use, so you never need to worry about accidentally using one that's off limits. If you're ever unsure, my youtube videos also state whether or not the song is copyright-free.
