

AWE USA 2026 Shipping and Material Handling - Think Green!

- Please see complete exhibit shipping and material handling information [in the Exhibitor Service Manual](#), Page 12.
- How much material should you bring?
 - Go Green! We ask that you **minimize your carbon footprint** when considering shipping, materials used in your displays, swag (giveaways), and printing.

SHIPPING INFORMATION

Please label each package/container as indicated here followed by the appropriate address for advance or direct shipments.

All shipments delivered to either the exhibit site or the advanced warehouse require a delivery slip showing the number of pieces, weight, and type of merchandise. Material Handling fees will apply to all shipments delivered to the exhibit site or the advance warehouse. Please see the Material Handling Estimate Form for rates & information. Surcharges apply to all shipments that arrive without proper piece-count and/or weight ticket information. This includes bulk consignment carriers such as FedEx and UPS Package. — This is standard verbiage but we do not enforce it.

- Delivery restrictions apply to all methods of receiving. Please make sure that your packages are being sent to the appropriate address during the scheduled arrival windows. If you feel your packages will miss the posted arrival dates and time, please contact AGS Event Services Department immediately to ensure their proper receipt. Add Eventservices@ags-expo.com or phone number 407-292-0025
- Mislabeled packages have the potential of being refused at the show site. Please remember to include your company name, booth number, show name, and AGS Expo Services c/o Long Beach Convention Center or ABF Freight on all packages sent to either the advance warehouse or direct shipments to the exhibit site AND remove all old labels from packaging.
