Hey Nianch,

Kudos for taking the bold step from the US to the European market. Your videos really capture that drive and determination.

I have 3 Instagram video ideas that will still keep your “ Comment { *word* }” format while leveraging a strategy from a top competitor in your niche called “ugcwithizyy”.

You can implement her content strategy that raised her views from 52k-55k to 123k-365k, which would help you break views plateau, and convert more viewers to your guides.

Here is what a previous client had to say about my work.

Email me if you are interested in a Zoom call to discuss the videos further.

I am free on Friday at 1 pm EET.

Best regards,

Ivan
