

Referral Incentive

Mathedmaven Tutoring has grown to what it is today is due in large part to personal referrals, and for this I am extremely grateful. If you are pleased with my service, it would be a great service to me please share your experience with family and friends who might be interested in math tutoring. To show my appreciation, I will offer \$50 for each personal referral that leads to a new student who uses at least 5 hours of my service.

You don't even have to be a current or former customer to take advantage of this incentive. All you need is PayPal, Zelle, Venmo. Just send them to ace-math.com (make sure they know there is a hyphen if you are sharing verbally) and tell them to complete the interest form on my webpage, on which they can identify you as the person who referred them. If they end up using my service, I will track their lessons, and when they have used 5 hours of service, I will send you \$50 using whatever payment method you use(d) to pay me.
