

Hi Janet here, I am Grad student, BA in psychology, Dog parent, Artist, Disabled And so much I mostly work with watercolour and acrylic paint. But I do use other mediums sometimes. I do not have formal training. However my high school art program had local Saint John artist cliff turner and John pottle as teachers. I took every class they taught. I really can't fully explain the why of my past works. I am taking things into a new direction with a focus on my experiences with my blood disorders, arm deformity and witchcraft. I did one group show over a decade ago and then the last time I had art in public was the Spoonies shindig.more!

Irish: Blood Witch

Heredity fortune teller and Spherocytosis

Also have TAR Syndrome

Selling art in NB
