

Parent Data Confirmation through Aeries Parent Portal

All families, new and returning, will need to access their Parent Portal Account through Aeries before school starts and complete **Data Confirmation**. This is a requirement for all students in grades TK-12. Aeries is our student Information system and is the source for our emergency notification system and our general communication platform, *ParentSquare*.

Returning Families/Have Account - You need to only set up an account once, but will need to add ALL your students and confirm data for all prior to school starting. You will receive an email on August 4th with the information you need to add any new student(s) that are not linked to your account currently.

New Families/Returning but No Account - If you are new or have never activated an Aeries account, you will be receiving an email notification on August 4th with the necessary information to set up your account.

New this year - Parents who have completed **Data Confirmation** for the 26-27 school year, will be able to see their student's assigned teacher (grades TK-6) and class schedules (grades 7-12) early on **Friday, August 7th**.

- [Parent Portal Access](#) - Click here or access the link from the District Website. Instructions for completing the parent data confirmation and Parent Portal registration can be found on the District Website under the "Parents Resource Hub" tab on the home page.
- There are 10 sections to complete for the Parent Data Confirmation. A brief explanation of each is provided below:
 1. **Family Information** - Foster Care, Homeless or Active Military identification questions
 2. **Income Survey** - Much of a school district's funding from the state and federal government is allocated based on the socioeconomic makeup of its student population. This is a very important question.
 3. **Student Demographics** - If your address has changed, you may input changes that will alert the school to contact you to confirm.
 4. **Contacts** - Who should we contact in case of an emergency? Who has permission to pick up your student in the event of an emergency?
 5. **Medical History** - Important information used by office and medical personnel only
 6. **Insurance Info** - Having accurate and updated insurance information allows the school to share it directly with emergency personnel or hospital staff.

Why are we asking for health insurance information during Aeries Registration?

California's Children and Youth Behavioral Health Initiative (CYBHI) Fee Schedule allows our school district to be reimbursed by health insurance plans (including Medi-Cal and private insurance) for some wellness and mental health support provided on campus. By completing the authorization prompt during Aeries Data Confirmation, you directly help our district secure the state funding needed to keep school counselors and wellness staff on campus at zero cost to your family and with zero impact on your personal health coverage or outside medical care. Providing this information is secure, confidential, and voluntary.

7. **Documents** - Please read and digitally acknowledge any special documents provided by your school such as handbooks, technology use policy etc.
8. **Authorizations** - There are 12 authorizations you must read through or acknowledge. You must mark "Allow" or "Deny" on each. You will only see the ones that apply to your school.
9. **Requested Documents** - Only applies if you have been asked to upload a document.
10. **Final Data Confirmation** - Electronically sign and date your submission - You are done!
