Chisel: Errors like "[FML]: Unable to lookup ..." are NOT the cause of this crash. You can safely ignore these errors. And update forge while you're at it.

EnderIO: Found the following problem(s) with your installation:

* The RF API that is being used (1.7.10R1.0.2 from <unknown>) differs from that that is reported as being loaded (1.7.10R1.0.13B1 from extratilities-1.2.12.jar).

It is a supported version, but that difference may lead to problems.

This may have caused the error. Try reproducing the crash WITHOUT this/these mod(s) before reporting it.

Stencil buffer state: Function set: GL30, pool: forge, bits: 8
