About Us

We are rising entrepreneurs based out of Southern California who are **passionate** about the car industry.

As car enthusiasts, we can attest to the difficulty of finding car detailers who understand the difference between vehicle washing vs. professional detailing.

After trying multiple car detailers, we realized most “detailing services” merely wash your car and use generic cleaning methods to refresh the interior of the vehicle.

Frustrated with the lack of proper vehicle detailing, we decided to open our own professional detailing service that prides itself on **quality workmanship** and **customer satisfaction**.

By booking *Little Red Detailer*, you can have peace of mind knowing you're in good hands as we ensure the ultimate vehicle transformation with our professional services.
