

Hi Daan,

I came over to your website and found your community story interesting.
Have you ever thought about a newsletter that keeps members of this brotherhood up to date?
As a copywriter, I help you build up your newsletter and empower your community connection.
Does it sound like an interesting addition? Will you be open to talking about it in a quick call?

All the best,
Somaye

Hi,

The WBM anchor-shaped pocket watch really caught my eye. It has a sense of pirate mood.

By the way, have you ever **minded** about building up a newsletter to develop your family business further? It will bring the sense of a community like a family to your customers, and off course, increase your sales.

Would you like me to build up your newsletter? You can receive this service out of charge and if you are satisfied with my work, you can give me a testimonial.

Does it sound like something interesting? Let me know in the reply!

All the best,
Somaye

Hi Philipe,

I came over to your website and found an addition to make your website perfect; a newsletter. You can increase your sales and customer engagement by implementing this option. If you would like, I can help you build up your first newsletter and write engaging emails to boost your business.

Are you open to discussing it in a Zoom call?

All the best,
Somaye

Hi Mr. Tank,

You are receiving tens of emails every day that go directly to the trash, but this one is different. Your business can extend its services via a newsletter, and reach maximum efficiency. I am a copywriter and can help you build up your newsletter. You will have 3-4 emails per week to send to your subscribers. Besides, as you may hesitate to trust me, I will write 5 emails for \$5, so you can see if my work meets your expectations. Why am I suggesting such an offer? Cause I don't want you to lose this opportunity.

If you are interested in this idea, rush me a reply!

All the best,
Somaye

P.S. Most consultancies use newsletters to increase their customers, so why not you?

An older one:

Hi Long,

I noticed a tip on your website that can help you boost your business like other top players in the wristwatch market. It seems like you are not using leads on your website yet, and most websites use leads as a marketing strategy. If your visitors get notified directly in their inbox about new products you offer, the revenue will be more than what you are making now.

If you find my suggestion interesting, let me know in a message.

Best regards,
Somaye
