Online educational resources. *EDU-699-34 Online Educ Resources)* May 30 - June 3 Tues-Sa Explore numerous online web 2.0 educational websites and tools that will enhance your classes and curriculum. These free online resources are available for the K-12 teacher to utilize within their classrooms and curriculum to "info-mate and auto-mate" your classrooms. These free and easy to use resources will make an immediate impact in your classroom and curriculum.

Google Tools and Apps for Education *EDU-699-35 Get Started w/Google Apps)* June-5-9 M-F Google apps offers schools many tools to utilize within their K-12 classroom. Learn the basics of these tools to move your classroom into the future. If you or your school are just getting started with Google Apps, then this is the class for you! Prior basic Google apps skills will be helpful, but not required.

Mobile devices and apps for the classroom *EDU-699-36 Mobile Devices & Apps)* June 12-16 M-Fr. Bring along your iPad and other mobile devices! This class will focus on using your iPads, phones and other mobile devices to leverage them for your classroom uses. We will also look at sites that can be incorporated on the mobile devices. (Plan to spend a small amount for class on iTunes for app purchases.)

Developing online tools (websites) for the classroom using Google Apps. *EDU-699-37 Develop Online Tools w/Google Apps)* June-19-23 M-Fr. A variety of Google Tools and Web 2.0 tools will be utilized to help teachers develop an online presence. Google Sites, Blogger, Google Forms, Weebly and other web 2.0 tools will allow teachers to incorporate new technologies and collaboration tools to enhance their existing classrooms or assist with online class development.
