

Plagiarism Policy

what is plagiarism? If you copy someone else's words, sentences, ideas or art, and pretend that it is your own work, that is **plagiarism**. Sometimes, plagiarism is accidental. This doesn't make it right!

It is not ok to copy sentences or paragraphs from a google search, and then present the work as your own. Writing is hard work! This year, we will practice taking notes and forming sentences that express your own ideas. This will help you become a better writer. You will produce work that is your own and you will take pride in your work!

Work that is plagiarized will not earn a passing grade. You will have the opportunity to redo the assignment.
