ALIEN ATTACK PENDING

by: Brooke W***

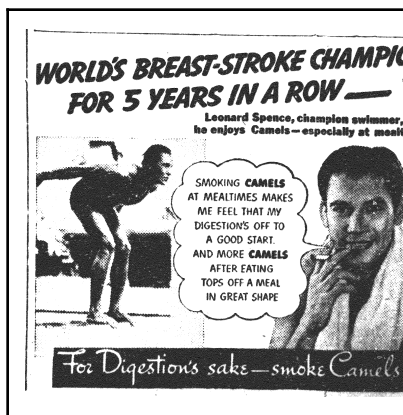

Several sources tell us that China will be nuked repeatedly by the U.S. in order to turn humans against humans.

These adhesive bandage with an absorbent center can have that cut heal in seconds

Earle Dickson

Don't how to apply to
your cut:
You simply cut off a
piece you need,
remove protective
covering, and apply to
the wound.
And That's It!

Earle Dickson - The inventor of the product and once a Johnson & Johnson employee, created this for his for his wife Josephine, who constantly burned herself while cooking. The original, that he created in his study room, allowed her to dress her wounds without assistance. Dickson passed the idea on to his employer, which went on to produce and market the product as the Band-Aid.

So if you or your family are ever in need of aid for cuts or minor injures, don't panic just apply it with one these babies and you should do just fine.

They are economical, handy, and aseptic and you can it pick up a pack at your local drugstore
