

NodeJS Project Building Challenge - Scaler Discord

- FAQs

Q: When does the challenge start?

A: The challenge begins on Feb 21st, 2024 at 10 am

Q: What is the duration of the challenge?

A: Sign up for the Project Building challenge from 21st to 28th February to create Node.js-based projects ranging from web applications, API, and chatbots to anything you can imagine.

Q: What are the exact steps of participating in the challenge:

A. Exact Steps to get started:

1. First register for the event:

<https://www.scaler.com/event/project-building-challenge-scaler-discord/>

2. Form to create team: <https://forms.gle/jZBDt7WLESuvG3H6>. You can look for team members in the Nodejs Project Building channel:

<https://discord.com/channels/780066247601291285/1206570294832009257>

(note: only one of your team members has to fill this form)

3. Come up with a theme around the project that you wish to build. The project has to be built during the time of the event.

4. -4. - Create a new forum post in the forum channel #nodejs-project-building-challenge-forum with the title as - ``<teamname>``

- For example, if your team name is `Invincibles`, your post title should be `invincibles`. You have to drop a message: `the team will work on which specific project idea`.

- Use this channel and your forum post to share daily updates on the project you are building.

- You have to create a project from scratch. Create a new repository on Github, keep it open source and push all of your project code there.

- You will get time till 28th Feb 11:59 PM IST to submit your project to be considered for prizes.

Link to join the forum channel is as follows:

<https://discord.com/channels/780066247601291285/1206570294832009257>

Q. Where can I reach out in case of Questions?

A: We have set up a help desk for the NodeJs Project building challenge. The name of the channel is #helpdesk-nodejs-project-building-challenge:

<https://discord.com/channels/780066247601291285/1206570294832009257>

Q: What are the rewards for completing the challenge?

A: Completing the challenge offers several rewards:

- Cultivating a habit of coding regularly in Nodejs/JavaScript.
- Best team will amazing prizes like tokens and gift vouchers
- Receiving a certificate for completing the challenge.

Q: How can I seek help or ask questions during the challenge?

A: If you have questions or need assistance, you can ask for help in the Nodejs Project Building channel: <https://discord.com/channels/780066247601291285/1206570294832009257>

Q: When and how can I put my certificate on LinkedIn to receive the rewards?

A: You can put your certificate on LinkedIn at the end of the challenge to qualify for the rewards.

Q: Do I need prior experience in coding or Node.js to participate?

A: Yes you need NodeJS knowledge. But even if you are a beginner you can still participate in challenge. Form a team.

Q. Can you provide some project ideas?

A. Pick any Node.js theme for the project: Do you want to build a full stack application, a Blog site, A bot, or Backend API framework - upto you!

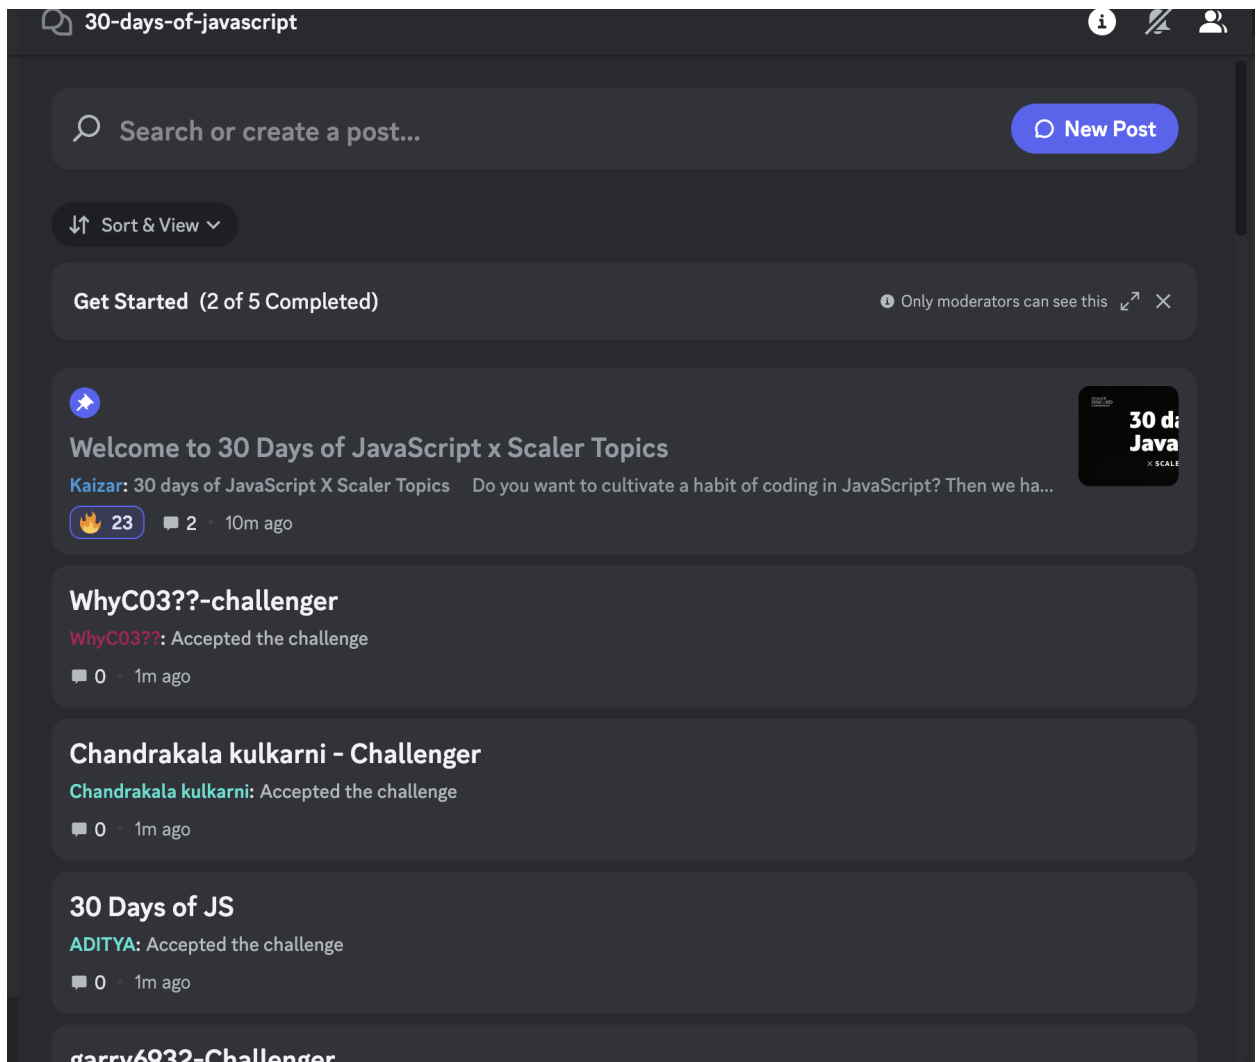

Here are some other examples:

<https://github.com/hacetheworld/ecommerce-store> - ecommerce front end & backend

<https://github.com/mgiatti/dev-radar-backend> - web radar backend only

<https://github.com/Armanidrisi/devblog> - simple blog using node js and mongoDb

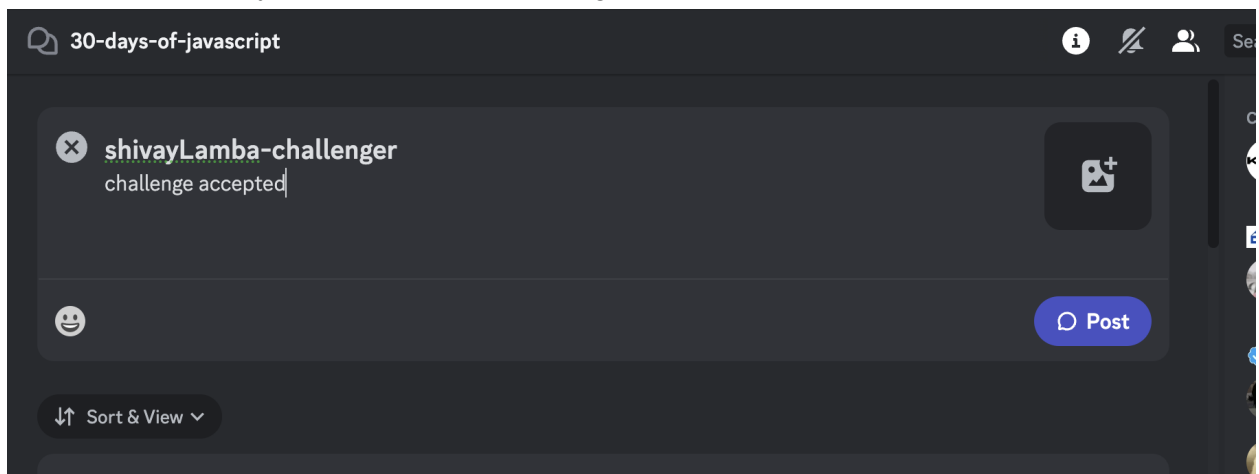

Q. How to create a forum post:

1.

Click on the New Post button.

2. Rename the title to your discordname-challenger. And click on Post

3. Your forum post is created.

4. Head down to your forum post and add your comments/posts there:
