The Honorable Ron Merkel QC  
Law Offices of Equity Generation Lawyers

Honorable Ron Merkel,

Far out here in California we read and celebrate your *O'Donnell v Commonwealth*, which defines necessary change to inspire communities all around the globe. We salute Ms. Katta O'Donnell on her bulletproof attitude, and her fearless activism.

Please thank her for setting the bar. Taxpayers funds have been wasted far too long. Your framing the climate debate as an *insider trading* is strictly ingenious. Capitalism was never intended to prove so destructive.

Kindly accept the enclosed book award as The Samuel Lawrence Foundation Prize for Ms. O'Donnell's brilliant innovation.

Sincerely, Bart

Bart Ziegler PhD, President  
The Samuel Lawrence Foundation
