Music - Mr. Wagner K-2

Objectives:

- I explain what accidentals are (Sharp=higher, Flat=Lower).

-I can play accidentals on aQWERTYon ,a musical app that allows me to play piano on my keyboard.

Sharp

Flat

Vocabulary:

Accidentals:

Accidentals use the symbols above to either raise a note (Sharp), or lower a note (Flat).

Scale: A group of

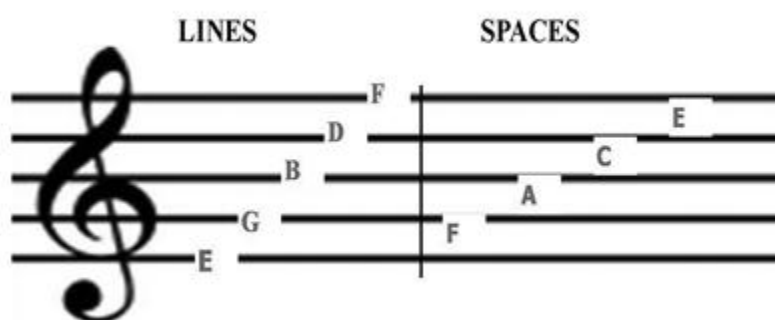

Instructions for Grades **K-2** students:

Hello Everyone! I hope you are staying safe and healthy and I miss you a lot!

Earlier in the year, we learned a scale called the C Major Scale in class.

This is **Do-Re-Mi-Fa-Sol-La-Ti-Do**.

Remember, the C scale is the notes C-D-E-F-G-A-B-C which are the letter names of **Do-Re-Mi-Fa-Sol-La-Ti-Do**. This is how the notes look on a music staff with lines and spaces:

Please take a minute and play the C Major scale (C-D-E-F-G-A-B-C) by yourself on this app:

[Theory aQWERTYon](#)

You can play Many songs with these notes. For example:

notes in a certain key. For example a C major scale is C-D-E-F-G-A-B-C

Twinkle Twinkle Little Star: CCGGAAG,FFEEDDC. GGFFEED, GGFFEED, CCGGAAG, FFEEDDC.

See if you can play it on the App!

Today we will learn about Accidentals with the music show. Accidentals are notes with a sharp sign to make it higher, or a flat sign to make it lower. They look like this below:

Sharp

Flat

Please check out the Music Show below with Mike and Luigi to explain Accidentals!

[Accidentalshappen.mp4](#)

Next, I'd like you to please explore Accidentals in aQWERTYon. **Press the SHIFT Key** on the left side of your computer to play Sharp notes. And press the SHIFT Key on the right side to play Flat Notes. How do they sound?

[Theory aQWERTYon](#)

- Next, I'd like you to use accidentals with aQWERTYon. Use the SHIFT KEYS on the Right Side and Left Side of your keyboard to change the sounds. How does each side sound different? Try to make your own song too. **Have fun with it!**

[AQWERTYON](#)

Happy Music Making!!!

Please fill out the Exit Ticket before you leave:

Have a great day!

=====

Objectives:

-I can explain what a Pentatonic Scale is. (5 note scale). Penta means 5.

-I can improvise my own music using the Pentatonic Scale on the aQWERTYon musical app.

Review:

- I can read the notes of a pentatonic scale on a music staff.

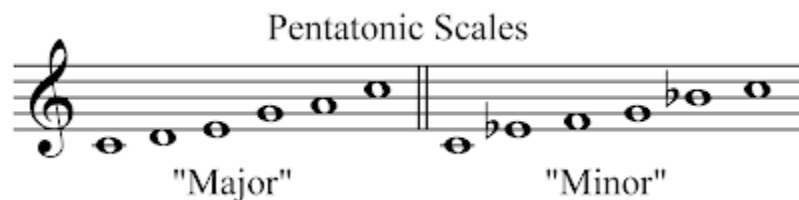

Vocabulary:

Pentatonic Scale (5 note scale) Penta means 5.

=====

Instructions for Grades 3-5 students:

Hello Everybody! Thank you for doing your lesson last week and learning about Jazz! Today we will discuss the **Pentatonic scale** in music. Penta means 5. For example, a pentagon has 5 sides. Well, a Pentatonic scale has 5 notes. So it's a fun way to play music with only 5 notes.

This week we will study about **improvisation** which is making up your own music in real time. Pentatonic scales will make it easier to improvise and fun as well! Here is a little introduction to pentatonic scales. Bobby McFerrin is amazing!

Please watch:

[Pentatonic Scale with Bobby McFerrin](#)

Now a Pentatonic Scale is just 5 notes. So if you start on C, a C major

A C Major
Pentatonic scale is
C-D-E-G-A

pentatonic scale is C-D-E-G-A. This is a nice sound. Please practice these 5 notes on your aQWERTYon app:

[Theory aQWERTYon](#)

Watch how many songs you can play with just these 5 notes:

[PENTATONIC MELODIES: How many songs can I play with 5 notes?](#)

Now, I'd like you to use 5 notes to play on this song. This is called a MINOR Pentatonic scale. The Notes are D-F-G-A-C. Please play them one at a time. Then play along to the song using those notes. Have fun with it!

[AQWERTYON](#)

- Try a different song and play with that too. You can also change the scale on the left hand side and try to play with a different scale too. Try to make your own song!

Happy Music Making!!!

Please fill out the Exit Ticket before you leave:

[Exit Ticket \(January 2021\)](#)

****Piano Music Challenge**** (optional if you'd like to play) Choose one of these songs :) The Bach song is new.
