IBMYP

IBMYP Algebra II, Level Four or Five Honors- Grade 9 or 10
Course #IB3135
1 Credit/Required
36 Weeks

Description

This is the recommended sequence for those students in the IBMYP who have completed geometry.

- Rigorous and in-depth investigation of topics and practical applications

- Solve linear and quadratics equations, and inequalities, and systems of non-linear equations

- Explore functions and their transformations

- Investigate polynomials and radical and rational expressions

- All Grade 10 students will complete the HCPS MYP certificate assessments.

Students may take the Algebra II SOL assessment to earn 1 verified credit
