

你 好, **Hola, Hello**

## **Angela Chu**

Angela joined the IFS board in the Fall of 2022, and has served several years as the Secretary of the Board. Coming from a background in Economics, Health Policy, and Public Health, most of her career has been spent advocating for patients and improving the patient billing experience and access to care. After over a decade in UX and web design for a variety of health tech companies, she now runs her own web design company and works as a certified divorce and co-parenting coach, helping families move through transitions while prioritizing their children's needs.

Angela is a native to Washington State but recently relocated to Bellevue from San Francisco, and loves the forests and rain of the Pacific Northwest. Her daughter has attended IFS for three years and is now a better Mandarin speaker and reader than her mom! Angela is passionate about the gardening projects at IFS and (little known fact) the apple trees and blueberry bushes on campus were a donation from her late father's nursery in Mount Vernon, WA, and she is thrilled to see them thriving at IFS.

Angela is also an aerial silks instructor and has taught extra-curricular circus classes on campus, her side career outside of tech and coaching!
