

ABOLFAZL BAKHTIARI

Tehran, Iran (Open to Remote Work in EU Time Zones)

☎ (+98) 912 238 2621 • [Email](#) • [LinkedIn](#) • [Github](#) • [Website](#)

SUMMARY

Results-driven **DevSecOps Engineer** with a strong background in **DevOps** and **SRE** practices, specializing in **automating CI/CD pipelines**, **containerizing microservices**, and **managing database clusters**. Experienced in **VMware virtualization**, **backup solutions**, and **implementing the ELK Stack** for centralized logging. As the **co-founder of Alo Application**, I have contributed to the development of numerous **mobile applications**, **web applications**, and **enterprise software solutions** in the **capital market domain**. Effective communicator and negotiator, facilitating seamless collaboration between technical teams, management, and stakeholders. Adept at **troubleshooting software-related issues** with a solid foundation in **smartphone software**.

PROFESSIONAL EXPERIENCE

[Vista Samane ASA](#), Tehran, Iran

Jan 2024 – July 2025

DevOps Engineer

- Enhancing pipeline reliability and efficiency by introducing automation and standardization practices.
- Improving versioning and release management processes for better traceability and consistency.
- Building and refining **custom tooling** to reduce repetitive tasks and improve developer productivity.
- Supporting containerization and orchestration initiatives to ensure smoother application delivery
- Collaborating across teams to identify bottlenecks and implement practical DevOps solutions

[Negah Novin Brokerage](#), Tehran, Iran

Jan 2024 – July 2025

DevOps Engineer

- Implementing **DevSecOps best practices** to enhance security across the CI/CD pipeline.
- Managing and optimizing **containerized microservices** using **Docker** and **Kubernetes**.
- Improving **cloud and on-premise infrastructure security** through **compliance monitoring** and **automated security policies**.
- Integrating **SIEM solutions** for real-time threat detection and response.
- Enhancing **observability and monitoring** using **Prometheus**, **Grafana**, and **ELK Stack**.
- Collaborating with development teams to ensure **secure coding practices** and **vulnerability management**.

[Alo Application](#), Tehran, Iran

Jan 2021 – Dec 2024

DevOps Engineer

- Automated **CI/CD pipelines** using **Azure DevOps** for seamless build and deployment automation.
- Containerized microservices using **Docker**, improving scalability and efficiency.
- Deployed and managed **relational and non-relational database clusters** (**PostgreSQL**, **MongoDB**, **Redis**) in a containerized environment.
- Administered **VMware ESXi hypervisors** and managed virtual machines using **VMware vSphere**.
- Integrated **backup solutions** such as **Veeam Backup & Replication** for virtual machine disaster recovery.
- Implemented **ELK Stack** for **centralized logging** and monitored services using **Prometheus & Grafana**.
- Set up a **centralized and scalable repository** and **package manager** using **Sonatype Nexus**.

Alo Application, Tehran, Iran

Jan 2019 – Present

Co-Founder

- Founded Alo Application, leading the development of 20+ mobile applications, 10+ web applications, and 4 enterprise software solutions.
- Spearheaded company growth by ensuring product delivery aligned with customer needs.
- Acted as a bridge between technical teams and management, ensuring clear communication and project alignment.
- Negotiated with business partners and customers to meet project requirements and deliverables.

Freelancer

Apr 2016 – Dec 2018

Application Developer (Freelance)

- Developed **20+ Android and iOS mobile applications**, demonstrating cross-platform expertise.
- Engaged in the **entire software development lifecycle**, from **concept to deployment and support**.
- Utilized **Adobe XD, XMind, Trello, and Git** for project planning, UI/UX design, and source control.
- Worked closely with **clients** to gather requirements, provide regular updates, and incorporate feedback.
- Resolved **technical challenges** and optimized application performance.
- Contributed to **team success** through **brainstorming sessions, code reviews, and knowledge sharing**.

Moshtagh Mobile Store, Qom, Iran

Jun 2011 – Mar 2016

Mobile Software Technician

- Repaired **bootloader** and **soft-broken devices** using **Z3X Shell and Fastboot**.
- Fixed **IMEI and baseband issues** on Android devices.
- Flashed **stock and custom ROMs** on Android devices.
- Upgraded and downgraded iOS devices, including enabling **Bluetooth file transfer** on iOS devices.

EDUCATION

Islamic Azad University, Qom, Iran

Sep 2013 - Aug 2015

B.A. in English Translation

SKILLS & EXPERTISE

- **Operating Systems:** Linux (Debian, Ubuntu, CentOS)
- **DevOps & Automation:** CI/CD (Azure DevOps, GitHub Actions, Jenkins), Infrastructure as Code (Terraform, Ansible)
- **Containers & Orchestration:** Docker, Kubernetes, Podman
- **Networking & Security:** Firewalls, VPN (WireGuard, OpenVPN), SIEM Solutions
- **Monitoring & Logging:** ELK Stack, Prometheus, Grafana
- **Databases:** PostgreSQL, MongoDB, Redis
- **Version Control:** Git, GitHub, GitLab
- **Project Management:** Agile (Scrum, Kanban), Jira, Trello
- **Communication:** Strong written & verbal communication, active listening, cross-team collaboration
- **Personal Traits:** High empathy, self-motivation, adaptability, problem-solving, creativity

NOTABLE PROJECTS

- **Online Trading Platform** (Financial Markets & Trading)
- **Ali Vitrine** (E-commerce & Retail)
- **Kelasak** (E-learning Platform)
- **Personal Fashion Design** (Fashion Tech)
- **Decobar, Khane-Nou** (Interior Design & Home Services)
- **Tosaeh, Check-In-Control** (Enterprise Solutions)
- **Lamasia Gym** (Fitness & Health)
- **Showmall** (Shopping & Lifestyle)
- **PlanEat** (Health & Nutrition)

LANGUAGES

- **English:** Proficient (Professional Working Proficiency)
- **Persian:** Native
