BACKSTORY

Sweet Elise, a child born to two parents who struggled for years to have a baby. They tried everything and in the end nothing truly worked. They turned to god in hopes he would have answers and it seemed to work! Elise was born and things were happy. At least they were for several years. She was an angel of a baby and an angel of a child but things shifted when she was 12, she had always seen things.

She made waves at the church often whispering to those who had passed, saying goodbyes or hellos. But it changed at 12, she changed at 12. The soft warmth of a young girl shifted into the whispering of dead languages, hostility towards her beloved church and often tantrums the moment she stepped foot in them, surges of violence and harming those she loved but more importantly the super natural abilities in her strength and things moving around her in outbursts.

It took years to cleanse Elise, she suffered and nothing seemed to work. The church and her parents were at a loss, it seemed she was, as the minister put it, not born from God but born from the Devil, built to be a vessel for his bidding. There was, according to the church only one clear treatment for this sort of situation a Rite of Exorcism.

It took several years of getting confirmation but by the time she was 16 she had her exorcism and Elise was seemingly freed from her demon. It took hours and when Elise came to, she had no memory of her childhood or herself and her life had to be completely rebuilt. It was easy enough it seemed despite the trauma of a demon in her body she was able to retain knowledge and quickly catch up to the area of schooling she should be in. She was something of a story and this led to a lot of isolation for the rest of her teenage years. Eventually when it was time for her to go to college she knew she wanted to solve mysteries and puzzles much like the memories she lacked for her own childhood. Private Investigation took a forefront in her head and that was her path.

But, things were not as simple and peachy as they seemed for Elise. Despite being “cleansed” of her demon and spending her time still in the church every sunday and participating in events she still got rashes on her skin when she attended some days. But more importantly she still heard something in the back of her head. Something urging her to do bad things.

So now the puzzle of what she missed in her childhood, if she truly is a daughter of the devil rather than a gift from god to her parents, remains. And more importantly, who still lived with her in her head.
