1. Who is your avatar? (the person you are trying to sell to)
Aarav is 40 years old; he has a slim face and a full head of hair. He also has a thick beard.
2. What is their current situation, and why is it so bad?
His current situation is bad because inflation is burning through his savings. He works long hours to pave the way for his future, and inflation is undoing his hard work. This is leaving him feeling increasingly anxious about his future.
3. What is their dream situation and why is it so desirable?
His dream situation is to watch his savings compile month after month. This would leave him feeling much more secure about his future. Whilst also making him feel like his hard work is paying off in the short term.
4. What problems are stopping them from getting to their dream situation (and how will your product solve them)?
He can't live in his dream state today as his savings are being ravaged by inflation, undoing all of his hard work. Leaving him feeling ever more frustrated. By leaving his money with Franklin Templeton India, they will invest his money high paying stocks.
5. How will your product help them bridge the gap between their current situation and their dream situation?
By investing his money in high-return stocks, fortifying his money against inflation.

SL: New technological revolution will make early investors *filthy* rich

Quantum computing is about to make every standard computer on the planet obsolete.

As Google has built a quantum computer that's about 158 million times faster than the world's fastest supercomputer.

This kind of computer could create the kind of AI we see in movies…

Cure every disease known to man…

And create the first million-mile EV battery…

The economic opportunities are endless.

And all of this technology sits in the hands of one firm…

Which is expected to watch its revenue explode by 1000% this year…

Far outperforming every over tech-stock…

And for the next twenty-four hours, I will be revealing how to invest in this firm…

>>>>Join the Quantum Computing gold rush and watch your investment soar NOW!

PAS
SL: Why cash holders are in grave danger

The top 1 percent are hoovering up all the wealth at an alarming rate…

The richest 1 percent grabbed nearly two-thirds of all new wealth worth $42 trillion created since 2020…

Almost twice as much money as the bottom 99 percent.

And if you're not in the top 1 percent…

Say goodbye to vacations in Goa…

Say goodbye to your Hyundai Grand i10…

Say goodbye to eating meat whenever you feel like it.

And get ready to feel your anxiety surge as you battle each month to cover the rent…

With the prospect of your children ending up on the street always gnawing at you…

The only way to avoid the financial tyranny currently unfolding is to play the game as the elites do…

And they don't leave their money in the bank…

>>>>Discover how to safeguard your family's future and join the 1% at the top of the financial mountain!

Why the rich don't work for money…

If all you ever do in life is work *for* money, you are destined for a life of poverty…

I could feel my blood pressure go through the roof as my landlord gave me the fatal news.

My rent was going to increase by 10 percent in the new year!

This would mean my family and I could barely afford to eat.

My children would go to school hungry, and the other parents would look at me like I was negligent.

I would be the man who could not provide for his family…

The man who could not keep his promise to his wife that he would always look after her.

I was staring down the barrel of complete failure, disgracing my bloodline.

Until I heard a man on youtube say something simple yet revolutionary…

Make *your* money work for *you*…

So I took a closer look into his platform and learned something extraordinary…

With the Electric vehicle industry exploding worldwide, investors could see 100% return in under a year…

And certain companies even more, up to 500%.

So I had a roll of the dice to see if I could change my family's fortunes...

And within a year, my initial investment of 400000,00 rupees is now worth 6000000,00 rupees.

And that is after I have taken out some to help with the rent.

Allowing my anxiety to dissipate into nothing…

Saving my family's future could not have been easier…

And it didn't involve much extra work…

So stop struggling to stay afloat and put your money to work today…
