Sub Pop is elated to announce the signing of Greek Artist, Σtella to their iconic roster of artists. Hailing from Athens, Greece, Σtella has proven herself a strong storyteller, an old-school pop paeon to the pangs and raptures of love.

On her latest offering, “Charmed” Σtella shares: *“We strive to charm, and to be charmed. Mirroring each other’s desires like birds-of-paradise in a tropical forest, dancing wildly to impress a potential mate. But despite our best efforts, things don’t always go as planned...”*

This song was recorded between London and Athens and was produced by Redinho from the Swet Shop Boys.

Σtella's forthcoming full length for Sub Pop will be released later this year and we'll have a lot more to say about that very soon. In the meantime, please enjoy this sonic sampling of what's to come. Click here to [listen \(INSERT LINK.\)](#)
