

Gary Coin Litepaper

Gary Coin is a meme token launched on ApeChain via Ape Express, inspired by the lighthearted degen vibes of the Web3 community. With no utility other than being a hilarious part of meme culture, Gary Coin embraces chaos and randomness, much like its origin. It thrives on humor, absurdity, and community-driven fun, providing a space for degens to unite and laugh at the world of crypto.

It represents the whimsical side of Web3, where the journey is all about having fun, sharing memes, and being part of something that doesn't take itself too seriously. Launched on **ApeChain**, Gary Coin rides on the back of **Ape Express**—a platform that's designed to accelerate memecoins with minimal barriers, fast deployment, and maximum meme potential.

- **Meme-Fueled Growth:** The coin thrives on the humor and creativity of its community, similar to how other memes spread like wildfire in Web3. The fun comes from being part of something silly and engaging in meme creation.
