

Privacy Policy

Last Updated: April 23, 2026

1. Our Commitment to Privacy

FaithConnect is built with a "Privacy by Design" philosophy. We believe your spiritual journey—your prayers, reflections, and scripture study—should remain private. Because of this, **we do not collect, store, or see any of your personal data on our servers.**

2. Local Storage Only

All data created or customized within the app is stored **locally on your device**. This includes:

- **Prayer Journal & Reflections:** Every entry you write in "Today's Reflection."
- **Notes & Highlights:** Any highlights or personal notes made within the Bible reader.
- **Saved Content:** Your library of "Saved Verses" and "Prayers."
- **Game Progress:** Your "Wisdom Tokens," "Streaks," and "Achievements."
- **Preferences:** Your settings for Dark Mode, font size, and notification times.

3. No Data Collection

- **No Accounts:** You are not required to create an account or provide an email address to use FaithConnect.
- **No Tracking:** We do not use cookies or trackers to follow your activity inside or outside the app.
- **No Cloud Sync:** Since all data is local, your information will not automatically sync to other devices. If you delete the app or lose your device, your local data (like your Prayer Journal) will be permanently lost as we do not keep backups.

4. Notifications

The app uses local notifications to send your **Daily Verse** and **Prayer Reminders**. These are triggered by the app on your device and do not involve any external server communication.

5. Third-Party Access

We do not sell, trade, or share any information with third parties because we do not have access to your data in the first place.

6. Permissions

The app may request the following permissions only to function correctly:

- **Notifications:** To deliver your scheduled reminders.
- **Storage:** To save your journal entries and app progress to your device's memory.

7. Changes to This Policy

We may update this policy from time to time. Any changes will be reflected by the "Last Updated" date at the top of this page.

8. Contact Us

If you have questions about this "Local-Only" privacy model, please reach out to us through our official developer contact information.
