

VSL Script - iPhone Repairing Shop

10 seconds from now I'm going to reveal why you shouldn't go right ahead and replace your broken screen but go ahead and refurbish it.

And the craziest part is, this costs you even less than traditional repair shops yet, delivers an Apple level quality treatment. In fact better than Apple because you don't need to step out of your home to get your iPhone repaired.

Our new Screen refurbishing method allows us to fix your broken iPhone screen where you will retain your Face ID, Apple Pay, Resale Value of your iPhone instead of installing a low quality replica like other traditional phone repairing shops. And by the time you have finished your lunch break it's back in your hands.

We have spent over 2500 hours perfecting this method and tested with almost 1200 clients in London, all giving 5-star feedback.

There's a reason for this. We value customer satisfaction and trustworthiness more than anything.

But even as I say that, you might be wondering...

"Can this really work for me?" And that's a good question.

If you want to get your phone repaired for cheaper, hassle-free, and without even leaving your house... Then this works for you.

Right now we're giving away a 40% discount to 40 lucky Brit's for a complete screen repair with a guarantee of a fully refundable service fee.

Already 29 spots out of the 40 are gone. I interviewed 5 people out of the 29 to see what actually made them choose us.

Their exact words were... our guarantee and the fact that we've never had a bad review gave them the confidence that this is going to work.

Click the button in your right hand side, take the eligibility test, select your iPhone model, fill up your information, then I'll see you inside.
