

EXPLORER BABYSITTING CONNECTION

Are you looking for childcare on your class workdays?

Each school year there are many families at Explorer who are looking for childcare on their work days. While Explorer does not provide babysitting, there is a way to connect with other families that are interested in a babysitting co-op.

How to Make a Babysitting Connection

1. **Babysitting Connection Google Form:** Complete the [Babysitting Connection Google Form](#) online.
2. **Response Google Link:** Review the [response link](#) to see if you have similar childcare needs to another Explorer family.
3. **Make a Connection:** Reply to families that fit your needs via the email or mobile number provided on the response link.

The Explorer Preschool Babysitting Connection Google Forms are provided for Explorer families to connect with other Explorer families in need of child care during working parent class hours. The Lincoln Glen nursery (entrance through the courtyard) can be used for your babysitting needs while you are at work in the class and can be used by multiple families at the same time. Please be considerate when using the nursery.

All child care arranged through the Explorer Babysitting Connection Google Forms is not regulated or provided by Explorer Preschool. Please use the Babysitting Connection at your own discretion.

If you have any questions, please contact Erin Kelly, Vice President at vicepresident@explorerpreschool.org.
