### *Describe your previous job as an elderly caregiver?*

As a caregiver in Taiwan for 5 years, I gain knowledge and skills by the supervision of nurses and doctors and the most of all is the one on one experience caring the patients with special needs, bedridden, elderly. I've done suctioning, vital signs, NGT feeding, PEG feeding, taking care of wound, tracheostomy care/cleaning, sugar reading device, insulin pen injection. And the most important skills I've learn to be proud of it, nurture my patience as an individual. I've learned that if you are a caregiver you have the big heart to care and heal people.
