BlackbeltGingaNinja: Video and music credits

This document will contain a record of the music I use in prominent videos. Right now, it's only the one big video… but maybe more to come?

Anyway: if it's a game soundtrack, I'll put the what game it's from + the name of the track. If it's a remix or something like that, I'll also put a link. If it's anything else, I'll do my best to credit and link them as appropriate.

Reach out with any questions or concerns!
