

Welcome to **the Omnic Lab**. We're a podcast that focuses on the strategies inside of the game of Overwatch. We are here to learn through trial and error, even if things get a bit crazy and blow up sometimes! We'll brew up team composition strategies, stir in some tips to play better, and hopefully equip listeners with the instruments they need to gain a strategic edge!

This week, Andres and Rob are talking this week about the new map Havana, all about the Storm Rising Event, and even some tips on completing it before the event expires! Additionally, we'll be covering the newest Junkrat & Reaper changes that hit live in brief.

Storm Rising!

- **Re-used Retribution assets**
 - Standard **Trooper** - Tracer & Winston cleanup, can leave them with 2 bars for Genji to get a free dash.
 - Standard **Enforcer** - Don't get shot by the shotgun, blink away before getting hit, stay away as Mercy

- Special **Sniper** - Avoid sightlines if possible, contest with Winston/Genji, use deflect, don't try to contest as Mercy
- Special **Assassin** - heal the target being attacked, have Winston take the hit, heal through it, use Valkyrie to avoid being hit
- **Heavy Assault** - Charge & Pin, Long clips of machine guns, gigantic HP bar, Try to trade his attention evenly, spread out cooldowns. Winston bubble, Genji deflect, then go range, save pulse bomb for this, Tracer damage and Valk are most important.
