Mid-Unit Assessment Extension Instructions for Enrich and Extend Groups

Use the think-pair-write routine to discuss your written responses, make connections to the text, and reflect on the unit's topic and essential questions.

- **Think**: Exchange your Mid-Unit Assessment written response with a partner. Record what you notice and wonder as you read your partner's written response. Notice similarities and differences between your partner's ideas and your own.
- **Pair**: Independently reread "Fast Fashion's Environmental Impacts Inspired Teen's 'Packing Dress'". Discuss what you notice and wonder with your partner. Come up with 2–3 text-based questions to extend the discussion.
- **Write**: Respond to the prompt: What new thinking and wonderings do you have about the essential questions and the unit topic? Make sure to incorporate what you're learning from your independent reading into your response.
