

## Properties of Compounds

Graphic Organizer

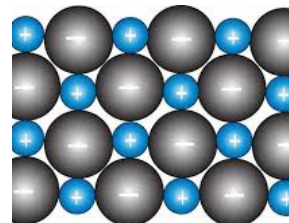

### Ionic Compounds

- Ionic compounds form crystal lattices.

- 

- 

- 

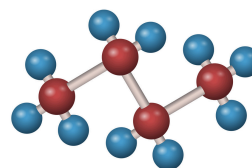

### Covalent Compounds

- Covalent compounds form molecules.

- 

- 

### Properties of Water

- 

- 

### Electrolytes

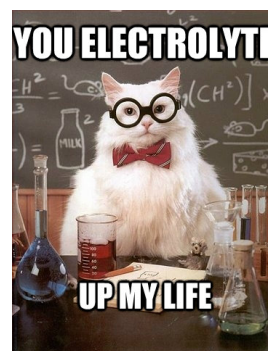

- 

- 

### Nonelectrolytes

- 

- 

Circle the chemicals that are electrolytes

Circle the substances that are most likely liquids at room temperature.
