DATE	04-02-2026
TIME	3:50-5:30PM
PLACE	GDC Ramachandrapuram
CHIEF GUEST	<u>Dr.CH.Rama krishna</u>
ORGANISING DEPARTMENT	BOTANY
NO OF PARTICIPANTS	39
BRIEF REPORT OF THE ACT	. The Department of Botany, Government Degree College, Ramachandrapuram, organized an Open Day for Intermediate Students on the college campus to introduce school and junior college students to the academic environment, facilities, and opportunities available in the institution. The program aimed to create awareness among intermediate students about higher education, different courses offered in the college, and the importance of choosing the right academic path for their future. Intermediate students from nearby junior colleges visited the campus and participated in the program with great enthusiasm. During the event, faculty members explained the various undergraduate courses offered in the college, especially in the science stream, and highlighted the scope and career opportunities in subjects like Botany, Zoology, and Chemistry. Students were taken on a guided tour of the college campus, where they visited laboratories, classrooms, the library, and other academic facilities. The Botany Department displayed preserved plant specimens, herbarium sheets, charts, and models to demonstrate the importance of plant science and biodiversity. Faculty members also explained the role of plants in maintaining ecological balance and their importance in medicine, agriculture, and environmental protection. Dr. C.H. Ramakrishna, Principal, addressed the students and emphasized the importance of higher education in building knowledge, skills, and career opportunities. He encouraged the visiting students to pursue higher studies and make use of the academic resources and facilities available in the college.

	Faculty members interacted with the students and clarified their doubts regarding admissions, courses, and career prospects. The interaction helped the visiting students gain a better understanding of college life and the academic environment. The program successfully provided intermediate students with valuable exposure to higher education and motivated them to pursue their studies with greater interest and confidence.
ACTIVITY PHOTO	
OUT COME	Outcomes of the Activity • Intermediate students gained awareness about higher education opportunities and courses offered in the college. • Students became familiar with the college campus, laboratories, and academic facilities. • The program motivated students to pursue higher studies and explore career opportunities in science.

	• It helped build interaction between college faculty and prospective students. • The activity created interest among intermediate students in subjects like Botany and environmental sciences.
